

No Night Football Friday; Westinghouse High To Play Saturday

IMPRESSION MADE BY ISHBELL TO LAST LONGEST, SAYS WILL

(Special To The News)
SANTA MONICA, Cal., Oct. 8.—Everybody is talking about the fine prospects of a world peace from this trip of Mr. MacDonal d. and already it has had tremendous good effects, but after this it's all forgotten and a couple of aviator men in both countries are in these high positions with many different ideas, why the lasting impression of Premier MacDonald's trip will be the effect that daughter of his has had on these girl cigaret ads, lip shell and nose kalsomining of ours over here.

Miss MacDonald has been so busy all her life learning how to be agreeable and wholesome, that she hasn't had time to worry about how she looked, and as a consequence she looks lovely.

Yours,
WILL ROGERS.

Portersville Woman Injured By Auto Is Recovering In Home

Struck By Machine While On Way To Church Late In August

Miss Mary Cleland of Portersville, struck by an automobile August 23, while she was on her way to the Portersville Presbyterian church, has recovered from her injuries so that she is able to walk, reports from Portersville indicated this morning.

Miss Cleland was walking toward the church, and after she had passed the church cemetery, she was struck by the fender of a car driven by Mose Wharton, hurled her to the ground and fracturing a bone in her foot. It is claimed that an axle of the Wharton car had suddenly cracked, and that the car, out of control, had lurched across the sidewalk, striking Miss Cleland.

She has been confined to her home since the accident.

Mayor Mackey Of Philadelphia In Chi For Series

Mayor Mackey And His "Famous Fifty" Aboard Special Baseball Train To Chicago

(International News Service)
CHICAGO, Oct. 8.—Shouting and waving banners, an enthusiastic and confident crowd of Philadelphia fans streamed off a special baseball train today. They lunched and pushed and yelled their way up the train. In the station concourse they gathered to give a big "PENNY-SYLVANIA" led by an impromptu cheer leader.

The party was led by Mayor Harry Mackey of Philadelphia and his "Famous Fifty"—friends of his who are attending the games at his invitation. "Of course we'll win," the mayor grinned. "What else do you think we came for?"

PROBE OF CULT STIRS WEST COAST

Mrs. May O. Blackburn, 48, and her daughter, Ruth Weiland, 22, leaders of a Los Angeles religious cult, have been placed under arrest, on charges of grand fraud while police investigate the death, four years ago, of Willa Rhoads, 18-year-old priestess of the cult, whose body has been found under the residence of her foster parents, and the mysterious disappearance of two other women. The fraud charges have resulted from the complaint of a wealthy oil man who alleges Mrs. Blackburn and her daughter obtained \$40,000 from him in connection with a book, "The Sixth Seal," that was written by Mrs. Blackburn. According to the girl's foster parents, she was to be resurrected with the completion of the book. But Mrs. Blackburn and her daughter have denied the charges, saying that they did not promise resurrection.

Wide Variance In Stories Told To Fall Case Jurors

Prosecutor And Defense Counsel Tell Different Stories At Trial

"INNOCENT LOAN" DEFENSE MAINTAINS

No Innocence In Transaction Declares Prosecutor Roberts

By GEORGE E. BURNO
International News Service Staff Correspondent
WASHINGTON, Oct. 8.—As far apart as the poles were the two stories told the jury sitting in the Fall bribery case today.

From Owen J. Roberts, special oil prosecutor, they heard a tale of felony and secret negotiations wherein a "little black bag" containing \$100,000 in cash reached the hands of former Secretary of Interior Albert B. Fall and a lease for invaluable federal oil reserves was signed over to E. L. Doherty, the California oil baron.

On the other hand, Hogan told of defense counsel, they heard a story of an innocent loan "from the old friend to another" and a valid oil deal that was highly profitable to the government.

"There was no innocence in this transaction," Roberts declared, "and to prove it I intend to show you that at the same time Fall was negotiating with Doherty, he also had entered into a similar deal with Harry F. Sinclair, another oil man, in which money passed."

On the other hand, Hogan told how Fall and Doherty had been prospectors together 40 years ago and bosom friends up through the years since then.

"What more natural than that Fall, when he wanted a loan to enable the purchase of additional lands for his ranch, should go to his oldest friend," Hogan queried. "We will show you that upon receipt of the loan, Fall made out in his own handwriting a perfectly legal note, payable upon demand, to Doherty."

Traces Negotiations
Prosecutor Roberts addressed the jury but 40 minutes. He traced negotiations leading up to the leasing of the Elk Hills reserve from their inception, stressing the secrecy of their nature.

British Premier Will Now Turn To Social Activities

Official Mission Of Pilgrimage To United States Is Concluded

BELIEVE SUCCESS HAS CROWNED VISIT

Diplomatic Dinner Is High Light Of Day's Program At Capital

By DAVID F. SENTNER
International News Service Staff Correspondent
WASHINGTON, Oct. 8.—The purpose of his peace pilgrimage accomplished, Prime Minister Ramsay MacDonald of Great Britain, today had concluded his official conversations with President Hoover and returned to the British embassy from the White House where he had been the guest of the chief executive.

From now until the MacDonald party leaves for Philadelphia next Thursday, the visit of the Premier will be mainly social.

As far as the eye and the ear of the outside observer could discern, the mission of the labor premier has been crowned with success.

C. S. Accepts.
The United States today accepted the invitation from the London foreign office for a five-nation naval disarmament conference in the British capital next January.

While the official American acceptance and those of France, Italy and Japan have not been officially announced, the matter was considered merely a question of diplomatic transmission.

An impetus toward a favorable atmosphere at the disarmament round table was contributed by the prime minister's dramatic address to the American senate in which he promised parity in naval armaments between Great Britain and the United States.

Referring to the mutual understanding on this subject which he and President Hoover had arrived at before their log-fire in the Hoover camp over the week-end, Prime Minister MacDonald said:

Parity, Without Reserve.
"Parity? Take it, without reserve, heaped up and flowing over. That was the only condition under which competitive armaments could be stopped, and we could create a public psychology which could pursue the fruitful and successful avenues of peaceful cooperation."

The premier also pledged himself against alliances between Great Britain and other countries and declared that war between his country and the United States was "unthinkable" added later on that it was "absolutely impossible."

The address, a blend of idealism, frankness, forcefulness and the impassioned creed of a statesman pacifist, was greeted with enthusiasm by leaders of both political parties in the senate.

Diplomatic Dinner.
The high light in today's program will be the diplomatic dinner to be given the prime minister. If time permits, the MacDonald party will also be taken to Mount Vernon and Arlington.

The diplomatic dinner will be tendered MacDonald by Sir Esme Howard, British ambassador and will be another brilliant affair. In the afternoon, the prime minister and Ishbel will attend a luncheon to be given them by the Canadian minister, Vincent Massey, and Mrs. Massey. Afterwards, they will be the guests of Secretary of the Treasury Mellon at ten.

Absolute Frankness
Washington, Oct. 8.—The conversations between President Hoover and Prime Minister Ramsay MacDonald concerning the broad phases of Anglo-American amity and world peace have been carried on in a spirit "of absolute frankness," Mr. Hoover told newspaper correspondents today at the regular Tuesday press conference.

Besieged with questions concerning the trend of his discussions with Premier MacDonald, Mr. Hoover waved a deprecatory hand and simply said "for those things that will promote the increase of good will and moral solidarity between the two countries."

Only Two Teachers Not At Institute

Formal Sessions Start With Almost Perfect Attendance

INSTRUCTORS START SERIES OF ADDRESSES

With only two absentees out of a total of 308 teachers in the county, the second day of the Lawrence County Institute got under way today in the Union Township school in Scotland, Pa. The day's sessions were in charge of Rev. P. C. Black, with music following by the institute members.

The speakers of the morning session were Dr. Tapp, whose subject was "The Call of the Wild," Dr. MacLennan, "Nature Study Equipment," and Dr. Rigdon who spoke on "Ten Types of Thinking."

Noon Luncheon
At noon the high school teachers and principals met at a round table luncheon, with H. J. Colton, principal of the Bessemer high school in charge of the program. Assemblyman Earl Richards spoke on "Financing Pennsylvania Schools."

The institute this year has started with the brightest prospects of any previous institute. The fact that only two teachers are absent is an indication of the interest shown, and the quality of the speakers this year is of such a high grade that attendance at the sessions becomes a privilege as well as a duty.

Lobbying Probe Steals Spotlight

Tedious Warfare Over New Tariff Bill Being Overshadowed

LOBBY PROCEDURE WILL BE EXPOSED

By WILLIAM K. HUTCHINSON
International News Service Staff Correspondent
WASHINGTON, Oct. 8.—The senate's sweeping inquiry into activities of congressional lobbies today threatened to steal the spotlight on Capitol Hill from the tedious warfare over the new Republican tariff bill.

A program of procedure for the lobby investigation will be adopted this week, possibly today, by the newly-named committee of Senators Cawley (D), chairmen, Borah (R), Ide, Ewing (R), Wis., Robinson (R), and Welsh (D) Mont.

The investigation will start with the tariff lobby, so that while the senate debates the bill, the country will be treated to an "inside picture" as to how the lobbies were fixed.

To Show Up Lobbying
"We intend to give the country a cross-section of lobby activities," said Cawley. "We will show the American people just how a lobby acts and just what it does. That will be our purpose in this inquiry. We will go after the lobbies, large or small, that

British Premier Begs To Be Excused As President And Officials Enjoy Selves

(International News Service)
WASHINGTON, Oct. 8.—Premier J. Ramsay MacDonald asked to be excused this morning when President Hoover and his "medicine ball cabinet" got out the old ball and gave it some rough treatment on the White House lawn.

MacDonald and his daughter Ishbel remained inside until the exercise was over. Then they strolled the south grounds together. Today they bid the executive mansion farewell. They will move their belongings over to the British embassy for a stay until Thursday.

WRIGLEY FIELD, CHICAGO, Oct. 8.—This ball park was a great sugar cake this afternoon and 51,000 baseball fans were the flies, buzzing, eager and hungry. A ten years' famine was over. The feast was on. Chicago again was in a world series for the first time since 1919, the year of the Black Sox plague, one of the worst in history.

It was a bad one, in truth, but far from turning the local crop of baseball addicts, it grew more lusty in the years between and today it flowered into the greatest crowd that ever saw a ball game in Chicago. Wringle Field was sold out to its last square inch hours before the first game of the 1929 World Series between the Chicago Cubs and the Philadelphia Athletics was scheduled to begin at 1:30 o'clock.

Park Overcrowded
The park that had served Chicago's needs through years of affluence and of adversity no longer was adequate. All night long, 25,000 fans had stood in line waiting for the opening of the general admission gates this morning. They opened and less than 12,500 were repaid for their hours of weary vigil. The others, hoping against their better judgment to the last, thus joined the half million who had threatened and pleaded, demanded and enjoyed by turns—and in vain. There were only 51,000 seats for a city and state and so the rest of the population had to hear and see the World Series by proxy—at the score boards, by telephone and on the radio.

By the time the Cubs had appeared (Continued On Page Sixteen)

Six Injured In Auto Crash

Accident Occurs On Greenville-Mercer Road This Morning

STATE POLICE ARREST DRIVER
GREENVILLE, Pa., Oct. 8.—Six persons were injured in an automobile collision near here this morning when a machine driven by Richard Little, Greenville, crashed into one driven by S. D. Gourley of near Frever. Then they spilled the south roads together. Today they bid the executive mansion farewell. They will move their belongings over to the British embassy for a stay until Thursday.

PA NEW OBSERVES

New Castle sport fans seem to be quite well divided on their ideas of the winners of the world's series this year. Both the Cubs and the Athletics have innumerable supporters here.

Owners of automobiles in New Castle and Lawrence county are apparently complying with the requirements of the law that their cars be officially inspected, quite early in the time period designated. The inspection must be made between October 1 and November 15, and several thousand cars are already carrying notice that they have been officially passed by the inspectors.

The day dawned like a real summer baseball day. Reports from Chicago also indicated that a fine day was in view for the game.

Fewer New Castle fans are at the world's series opener today than for several seasons. Chicago is too far to travel to witness the game, or tickets were harder to secure, or for some reason the number of local fans is reduced.

Tracking the new road between this city and Walpole, recently opened, left at all smooth sailing. Workmen are engaged in completing the task of paving the center of the highway, and frequently the concrete is blocked, necessitating a detour through the center. At the Walpole end of the paving it was necessary to use one-way traffic methods with a flagman at both ends of the single track stretch. Good progress is being made on the task of completing the center strip, however.

Actual bids are being asked for the removal of the Resena furnace dam by council, and it is indicated that the entire dam is to be removed before winter arrives. It is believed that removal of the dam will serve as a method of dredging the creek and will also eliminate high water dangers in the winter and spring.

Tar and gravel have been laid on the New Wilmington-Sharon road. While driving along the road the roads loudly clatter inside the mud guards of the car. Don't drive on the road for pleasure.

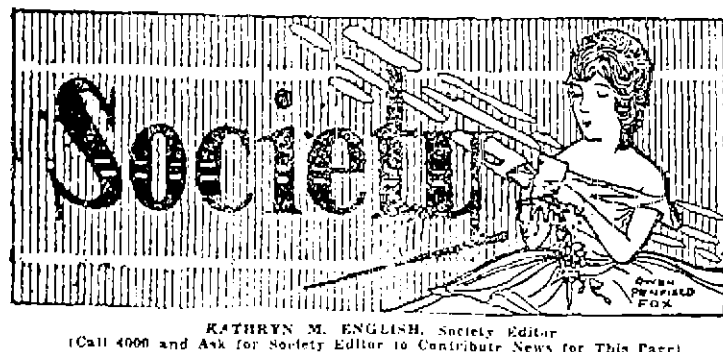

Sharon cops are minding their own business. Pa. News declared, when he found a little red tag attached to his car last evening. The car was parked in front of a driveway, so they say.

Petitions which are being circulated by the Neshaumuck Viaduct Association are meeting with favorable response from New Castle property owners. Squire Green, one of the proponents of the viaduct, says.

Another fairly heavy frost was noticed this morning, the temperature dropping very close to the freezing mark. The minimum was reported as 34.

Daily Weather Report

Weather statistics for the 24-hour period ending at 9 o'clock this morning are as follows:
Maximum temperature, 68.
Minimum temperature, 34.
No precipitation.
River stage, 42 feet and falling.

CELEBRATE FORTIETH ANNIVERSARY, MONDAY

Covers were laid for 125 guests when members of the Woman's club celebrated their 40th anniversary with a 1 o'clock luncheon at The Castleton Monday. Vari-colored fall flowers decorated the tables and Mrs. Elmer Crawford was chairman of the committee.

The president Mrs. W. A. Pond presided and the program of the afternoon was directed by Mrs. A. B. Street.

The song of the Woman's club composed by Mrs. William Cossel opened the program after which the 40 years of their organization in periods of ten years was depicted by the various members in a most interesting manner. All of the participants wore costumes of their particular period, making the settings realistic and exact.

Our club, 1889-1899, Mrs. John Butz, chairman, presented by Mrs. C. J. Kirk and period members.

Our club, 1900-1909, Mrs. W. K. Huges, chairman, presented by Mrs. S. E. McCleary, who is one of the oldest active members of the organization.

Our club, 1910-1919, Mrs. S. D. Pearson, chairman, presented by Mrs. Thomas Gilkey, the programs; Mrs. Ernest Gerrier, Civic Enterprises; and Mrs. Thomas Clark, roll call.

Our club, 1920-1929, Mrs. A. B. Parkhouse, chairman, presented by Mrs. C. J. Kirk, "Past," Mrs. A. B. Parkhouse, "Present," Mrs. Elijah Kaplan, "Future."

At the conclusion of the program Mrs. George Fox gave a poem "Retrospection" of her own composition which was well received.

Miss Mary Agnew, former president of the club was a special guest; and out of town guests were Mrs. John McDuffy of Coropolis, Miss Grace McKinney of Butler, Mrs. Grace Dunker of New Brighton, Mrs. Frank Perry of Beaver Falls, Mrs. John Coleman of College Hill, and Mrs. McCandless of Butler.

Four of the charter members of what was then known as the Circle of '89 were present at the meeting. Mrs. John Butz, Mrs. John Nothdurft, Mrs. C. J. Kirk and Miss Lucia Richardson.

The membership of the club has increased from 40 to 220 during the 40 years of organization.

During the business session it was voted to assist the Art club to bring Home St. Gardens to speak in this city in January.

Entertains Class
Miss Helen Johnson and Miss Anna Johnson were joint hostesses, Monday evening, to members of the Catherine Von Bora Missionary Society of St. John's Lutheran church at the home of the latter, on Boroughline street.

Thirteen members were present and Miss Anna Johnson was the leader of the evening. The subject for the lesson was, "The Best Place For A Church."

Piano selections were played by Miss Barbara Shultz. Later in the evening, delicious refreshments were served by the hostess, assisted by the mother of Miss Anna Johnson.

Plans were made for a Halloween party to be given in the basement of the church, Tuesday, October 29.

Date Correction.
Mrs. Elmer Rice of Butz street will entertain members of the Loyal Band class of the Third U. P. church at a masquerade party Thursday evening instead of this evening, as was previously announced. Associate hostesses will be Mrs. Charles Pitzer and Mrs. William Reynolds.

MISCELLANEOUS SHOWER HONORS BRIDE-ELECT

Honoring Miss Edna Ridley, a bride-elect, Miss Martha Rose entertained at a miscellaneous shower in her home on Emerson avenue, Monday evening.

The evening was spent with bridge, three tables being in play. Prizes for high scores were awarded Miss Alice Thompson, and Miss Mildred Ridley.

Many lovely gifts were presented the guest of honor.

Tones of orchid and yellow prevailed in the appointments, and the hostess was assisted in serving dainty refreshments by her mother, Mrs. Charles Rose, and Miss Betty Connelly.

Church Wedding.
Miss Emma Filigendi, daughter of Mr. and Mrs. A. Filigendi of this city, and Louis Zaczko of Ellwood City, were married in St. Vitus church Monday morning at 10 o'clock with Rev. Fr. DeMita officiating.

The bride wore a gown of white satin and lace and her veil was caught with a cascade of pearls and rhinestones. She carried a bridal shower of roses.

Miss Mary Filigendi sister of the bride as maid of honor, wore peach georgette with picture hat to match and carried opelia roses.

James Diloseph served the groom as best man.

Bridesmaids were Miss Florence Bordenaro and Miss Mary Ricciuti, in green; Miss Margaret Spelich and Miss Mildred Spelich in orchid; Miss Louise Filigendi and Miss Amelia Filigendi in pink and all carried Columbia roses.

Frank Cavaricci was ring bearer, and the flower girls were Flora Filigendi and Vienna Cavaricci.

A breakfast at the bride's home followed the ceremony and later the bride and groom left for a trip to Detroit and other lake points. Upon their return they will reside in Ellwood City.

B. P. W. Meeting
Business and Professional Woman's Club Monday evening in the Y. W. C. A. for dinner, followed by the monthly business meeting. Routine business was discussed and club rosters were distributed.

The club is completing plans for the pageant, "The Book of Ruth," which will be given in the senior high school.

The Sharon B. P. W. C. has invited the New Castle club to a birthday party on Thursday evening, Oct. 10.

Following the regular session the committee in charge of the pageant met and completed plans and much enthusiasm was shown.

Mrs. Amelia Wilson is busily engaged in choosing her cast and states that New Castle is able to produce a great deal of talent, and from all indications the affair will be one of the best dramatic productions ever presented here. The full cast will be announced in the near future.

Entertains Class
Margaret Shields class of the First M. E. church held their regular monthly meeting at the home of Miss Sopronia Louer, Delaware avenue, Monday evening.

After the business meeting the hours were spent in games, music and chat. Dainty refreshments were served by the hostess, assisted by her mother and sister.

Those present were Mrs. Shields, Miss Wanda White, Mrs. Lawrence Summer, Miss Kathryn Hodge, Dolores Gould, Dorothy Boyles, Mabel Campbell, Alice Warner, Mrs. Lee Starr, Mrs. Chester Craig, Miss Helen Seichley, Sephorina Louer and Frances Leniker.

The next meeting will be at the home of Mrs. Lawrence Summer, Second street, Ellwood City, in November.

Birthday Surprise
Members of the E. O. W. club last night tendered Mrs. Thomas Maloney of Hillcrest avenue, a surprise in honor of her birthday. The affair was in the nature of a tureen dinner. The guests of the occasion numbered twelve, including the following special guests, Mrs. Walter Smith, Mrs. Jay Bumbaugh, Miss Josephine Duda, Mrs. Joseph Blue Jr. of Youngstown and Mrs. John Grise of Girard, O.

A delicious tureen, Mrs. C. Leroy Merwin presented Mrs. Maloney with a beautiful gift on behalf of the club. Five hundred and radio music were the diversions of the evening. The dinner aides were Mrs. Walter Smith, Mrs. Carl Gaston and Miss Jessie Goodchild.

NATIONAL FIRE PREVENTION WEEK

OBSERVANCE of Fire Prevention Week is nation-wide and has the particular approval and encouragement of President Hoover as one of the means of reducing the immense waste of the assets of the American people to which he gave so much attention while secretary of commerce.

"The fine interest manifested in fire prevention by public officials, business men's organizations, women's clubs, civic organizations and the press has already borne fruit," said the president in his proclamation of the occasion. "For two consecutive years fire losses in the United States have been decreased and there are indications of a further reduction during the present year. A further great reduction of this tremendous waste could be effected through the exercise of ordinary care on the part of our citizens."

In 1926 the fire loss in this country reached the awesome total of 560 millions of dollars. The estimate for 1928 was 475 millions and this reduction of 85 millions is held to have been largely if not entirely due to organized preventive methods based upon the campaign of public education of which Fire Prevention Week is the core.

Cultivation of the principles of safety which have been laid down in sets of brief and easily remembered rules is a civic duty. And the best place to begin is in your own home. Start today.

ART IN BUSINESS

Illustration and the uses to which it is now put are not at all the same as some years ago. Then a stigma attached to commercial art, Howard Pyle or Edward Penfield had permitted drawings of theirs to be used for advertising purposes, they would have appeared anonymously. The illustration work they did was for books and magazines.

Charles Dana Gibson, J. C. Leyendecker and others of the old school are remembered for their magazine and book illustrations. Coles Phillips was of the modern school and probably more than anyone else made commercial art respectable.

Conditions for the young artist today who wants to be an illustrator are not favorable unless he is willing to cultivate the gods of trade. The constantly increasing cost of book production has resulted in cutting down the picture-making of the scenes in fiction. This arrangement suits many authors, for they are often dissatisfied with the representation of their darlings. The reader, too, is probably as well pleased, for frequently he patterns a character on some one he loves or hates, and it destroys his image to see a different representation.

The result of this revolution in illustrating is that much of the best work is now found in advertising and the art is largely dependent upon advertising for patronage.

THEY'RE OFF ONCE MORE

The day is here—The world's series begin!
And the Yankees won't be in it.
Thousands will see the games. Millions will watch the little ball march across the board, at ball players over the land, and get all the thrills of the games, even though miles away.

Naval disarmament will take a back seat.
Tariff talk in the senate will momentarily subside.
Investigations of lobbies and shipping board activities fade into lesser importance.

The stock ticker will lose some watchers.
The American nation is at the peak of its annual existence, the thrilling climax of its emotions.

What will the Cubs do to the Athletics southpaw pitching? Can Carlson, Root, Malone slow up the bludgeoning attack of Fox and Simmons and all of Connie's stickmen?

The guesswork of weeks now gives way to the piling up of facts. The stories of the "series" of '29 is about to be written into the record.

Brief ecstasy, to be followed by off-season postmortems on the one side, happy memories on the other.

There is nothing in the world like it.
And a good and wholesome thing it is, this yearly battle of the super-men of baseball.

Those who don't get a huge kick out of it have our sympathy, and are advised to see a doctor. Something must be wrong with their insides.

The nations should remember these days that cocking the gun is rocking the boat.

Breaks. Something or other in football that explains why the expert's selection was walloped 63-2.

Readings the average modern novel with a sensational jacket is a lot like answering the door bell around Halloween.

"If He Is Right, We Are Wrong," The People Cry: "Let Us Hang Him."

As birds of a feather flock together, so you elect to associate with people much like yourself; and if one of your intimates should begin to spend his idle hours with men you think unworthy of respect, you would say to him: "Why waste your time in that company? What do you see in such a fellow?"

You friend might defend himself by saying: "These men are as Nature made them. I am not their judge. I make no comparisons. They amuse and instruct me. Will the botanist gain great knowledge if he studies nothing but roses?"

If you would discover whether your attitude toward your fellow men is reasonable, compare it with your attitude toward trees.

There are many "races" of trees, and you like best the ones that grow in your native land—not because they are superior, but because they are familiar.

The trees of one family differ from one another in many particulars, and you admire most the ones that are graceful, tall-stemmed and defiant in the face of storms. The undernourished, sickly, dwarfed and misshapen members of the family go not into your estimation.

You value above all others the fruit and nut trees. These serve you and pay you a profit.
Next to these you value the hard-wood and "evergreen" trees that can

Drudgery, Harsh Word.
Very Old Crocodile.
Russia, Two Views.
Happy Aga Khan.

By ARTHUR G. BRISBANE
(Copyright, 1929, King Features
Syn., Inc.)

Raised by his own effort from humble workman to British prime minister, Ramsay MacDonald gives advice for success that will not attract modern youth.

"Accustom yourself to drudgery. Get your heart into your work, whatever it may be, for work without heart is dead."
"Discipline yourself to drudgery; for by that you gain a mastery both over yourself and the world."

That word "drudgery" has a harsh sound. But without drudgery there is no great success, even for genius. "Ten per cent inspiration, 90 per cent perspiration," applies to every form of genius, from Phidias to Michael Angelo, from Michael Angelo to Pasteur.

Sons of great men rarely make a mark in the world. Their father's success enables them to escape drudgery.

The American Museum of Natural History includes in treasures recently acquired the fossil skeleton of a crocodile said by scientists to be fifty million years old.

It seems strange to think of a day 49,668,000 years before the late stone age of man when the crocodile, with long mouth, low forehead, sluggish movements, was perhaps the most intelligent being on earth.

After trying to digest that, you read in Eddington's "Nature of the Physical World" that matter on the constellation of Sirius weighs about 2,000 pounds to the cubic inch.

The high temperature, if you wish an explanation, breaks up (ionizes) the outer electron systems of the atoms, so that fragments can be packed more closely together.

It is as though our solar system were packed full of suns or planets, instead of having them scattered far apart. The system would weigh more. Fifty-million-year-old crocodiles and crowded atoms make you feel that pure science must be meant for the few.

Russia agrees to withdraw from India, propaganda apostles preaching Communism to Russia.
Britain renews full diplomatic and commercial relations, and will lend Russia \$50,000,000 to start business going, which is common sense.

Our government thinks it is our duty to recognize Russia's government and refuses to recognize Russia's American big business is wiser. The General Electric Company, of which Gerard Swope is president and Mr. Young chairman of the board, gives Russia credit for more than twenty millions as a start, sells to Russia vast quantities of machinery, including machinery for generating electricity by water power, biggest of its kind ever made.

Henry Ford sends his best engineers abroad to help the Russians organize tractor factories, and gives Russia extensive credits. General Electric and Ford report that Russia is good pay. It is fortunate that our big business has the common sense that our big government seems to lack.

The Aga Khan is a most intelligent, enormously rich Asiatic gentleman. Millions of Mohammedans in India recognize him as their religious chief and send him millions of dollars in tribute.

While they turn their faces toward the East and Mecca in prayer, the Aga Khan turns his face toward London and Paris, where he keeps time racing stables and enjoys life thoroughly.

The Aga Khan is about to marry for the second time; his first wife is dead. The second wife, a Christian, like the first, is a French girl, formerly a worker in a candy store, and will not change her religion.

India's Mohammedans will not like that, but their faith keeps them loyal to the Khan.
What Mohammed would say about two racing stables, two Christian wives, art galleries full of pictures, and well-filled cellars is easy to imagine.

Col. Theodore Roosevelt begins well, as governor of Porto Rico, by seeking to abolish the barefoot habit among natives. Dr. Pabst, learned dermatologist, says going barefoot is especially dangerous in a tropical country, and unwise anywhere.

Hookworm and lock-jaw come from walking barefoot, and 40 per cent of adults in this country have "ring worm lock" from the same habit.
If a man's feet should be protected by sandals or some other covering, even in the hottest weather, and when bathing.

Political campaigning is made easy by talking pictures. Mayor Walker, life-size, talks at dwelling upon his record in a clear voice, with appropriate gestures, preceded by loud music that draws the crowd.

And the real Mayor Walker may be slaving in his office, or possibly farther uptown, while Mr. William Fox's moviephone enables him to talk to a dozen crowds at the same time.

This new campaigning has many advantages. One speech becomes a thousand speeches. No sore throat, and you say exactly what you mean.

AMERICANISM: Teaching children to believe the Fathers of America were wise: telling them the social customs of early days were very naughty.

Respect for law must begin in the home—not as a result of spanking, but as a natural result of making the home laws respectable.

The best thing in the world to pay people in is in cash.

The reason some men are elected to office is because every now and then people want a change and they will vote for anybody. This country has suffered a lot from that kind of voting.

Dear Sir: Reading your column, I found a statement that an Archaeologist discovered vanity of women dates back 5400 years. Now as a student of creation and as archaeologists bank on the creation of all things, I know that the vanity of men dates to the time of Adam. The proof is that Adam told God, the creator of all things, to bring up his beasts and he would name them, and also dictated that women or woman was to be made for him. Could there be any record of such vanity of women to exceed that of Adams?

Mrs. E. H. B.

There are always a few half-grown louts who start celebrating Halloween about the first of October. Good salary fine of about \$50 and 30 days in jail will cause them to lose their enthusiasm, at least on Halloween night.

The United States court of appeals, sitting in Philadelphia, ruled that the purchase of liquor cannot be considered to slip the hips of the passengers with the hope their hands would strike a bottle—or sumpin'. An order has just been issued for the agent to stop this practice. No doubt this was confined to the male passengers only.

GLAD WE HELPED
October 4, 1929.

Mr. Fred L. Rantz, New Castle News, New Castle, Pa.

Dear Sir: The board of directors of the New Castle Agricultural Association, at their last meeting, passed a motion thanking you for the generous support given the fair this year, both in publicity and premiums donated. They very much appreciate this spirit of co-operation and requested me to notify you of this action.

Thanking you on behalf of the board of directors, I am,
Very truly yours,
NEVA B. MOORE
Assistant Secretary,
New Castle Agricultural Assn.

Editor's Note—If we helped the recent fair any we are very glad of it. If there is anything that should be supported around here it is the annual fair. Those who do not help should not criticize it. We should all get behind the fair next year and help pay off that \$20,000 debt that has been hanging over it since it was started.

Dear Hints and Dints: Am through cedar mopping the whole house as I do every morning of my life, and NOW I am on my way down town shopping. Going to look for a gray rug that'll fit under the bed. Every morning of his existence that brutal husband of mine, while putting on his shoes, looks under the bed and says, "See where we will have to cedar mop under here today." ("The we" means nothing; except to act as a slave).

THIRD WARD.

Kisses nowadays are taken for granted; that is, they're taken and usually granted.
Three men were expelled from the Communist party in Mexico. It would be interesting to know what they could have done to get fired out. It must have been something terrible.

We have been asked to use only nice, gentle stuff in this column and not people on the back and tell them how nice they are. If we do any patting on the back it will not be nice and gentle. If we cannot tell the truth in this column, we will quit writing it. And, by the way, do not think for a moment that we are posing as any moralist, saint or anything we are not. We know what we are and we freely admit it: we are often ashamed of it ourselves.

No city can get along without hospitals. New Castle has been very lax in supporting hospitals as they should be supported. Youngstown has just opened a new \$1,000,000 addition to an already large hospital in that city. A very few people in this city recently raised about \$75,000 for hospital purposes and no one heard about it. There are a lot of little things that can be done for hospitals. For instance, a bushel of tomatoes, potatoes, a ham or, in fact, any kind

to pass, and was shocked beyond reason at the unusual spectacle.
"Boys, boys," she remonstrated. "Isn't it against the law to bathe without suits?"
"Yes, lady," chirped one of the lads, "but come on in. We won't tell on you."

So far no one has attempted to engrave a cross-word puzzle on the head of a pin. It probably cannot be done.

It's dangerous to call a man worthless a dead beat and a lower. He may serve on your jury some time.

Mr. Fred L. Rantz, "Hints and Dints Column," New Castle News, New Castle, Pa.

Dear Mr. Rantz: In my opinion the "Hints and Dints Column" is one of the very best departments in The News. And The News has many, many good departments. In fact, The News is the one paper that I swear by—not as the only criticism I have is that you are not as vigorous in applying the lash to the "bimbos" as you were two years ago. Why not give it to them good and strong, like you used to, and pay no attention to criticism that may come from a few sensitive "weak sisters"?

Sincerely yours,

IF WE UNDERSTAND—

Ourselves we save more trouble than if we understand other people.
Our own weaknesses we are already safeguarded against defeat. All mysteries but life we are still ignorant for life is knowledge. The beauties of the world without knowing the creator of beauty we are still poor.

Humanity we are much more apt to have charity for it.
How to heal the body, but not the mind, we still leave the world with its greatest pain.
The works of God we have begun to understand the character of God.

Woman As Senate Candidate Turns Eyes Toward Illinois

Political Strength Of Mrs. Ruth Hanna McCormick As Matched Against That Of Senator Deneen Believed To Promise Warm Fight

Mrs. Ruth Hanna McCormick, seeking the distinction of being the first woman elected to the United States senate, attracts countrywide attention. Her political strength, shown in her election as a member of the lower house of congress from Illinois, is recognized, while the political power of Senator Deneen, whom she will oppose, is accepted as a promise of a vigorous campaign.

"Her candidacy is something to be reckoned with in Illinois politics," in the opinion of the SPRINGFIELD ILLINOIS STATE REGISTER, which says of her campaign for representative-at-large: "It was as brilliantly conducted, and when the ballots were counted, it was found that she had won the entire state ticket."

"The success in building up more an organization of great flexibility and power, which may be counted on to work faithfully and indefatigably in her interest in the forthcoming campaign . . . it bids fair to be a real battle from start to finish."

"Competition in politics, like competition in business, is wholesome," remarks the CHICAGO DAILY NEWS. "Mrs. McCormick is an interesting figure in public life, and readily might prove a real force in national affairs, though her service in the house of representatives has been too brief to afford a measure of her ability. What are her claims to preference by the voters of her party over the present worthy senator from Illinois will appear in due time. Meanwhile the virile representative-at-large has an opportunity to show how woman as a refining influence in politics can make a campaign devoid of sordid features such as frequently have disfigured the senatorial campaigns of men in this and other states."

"Her political background," as observed by the TOLEDO BLADE, "is one of hereditary environment and experience. She purposes conducting a business campaign. Finally, she wants an office to which no woman has ever been elected. There is no place in her candidacy announcement for the usual political pother about being forced into it by friends, but she says: 'No candidacy for this high office deserves to succeed if it is actuated by any purpose involving political reprisal or personal reward or by any influence of party or of the district committee wish to administer a public trust honorably and well.' There is a ring of rightness about that which will win the approval of men and women, Republicans and Democrats alike."

"She has undertaken a task," thinks the CHATTANOOGA TIMES, "which few male politicians would attempt. She seeks to wrest a Republican senatorial nomination from the hands of the powerful Deneen machine. It was Deneen who used his political steam-roller to defeat the capable Medill McCormick in his race for re-nomination six years ago. Deneen, himself, won the nomination, not because of ability as a statesman, but because of ability as a machine politician."

"Ever now, experienced observers of Illinois politics," according to the SPRINGFIELD UNION, "are a bit chary of hazarding a guess on the probable vote-getting strength of the two principals. In ordinary circumstances, Senator Deneen would be assumed to be most difficult to defeat for a re-nomination, but with Mrs. McCormick as his chief, if not only opponent, the horizon has a few new things, but ordinary . . . Meanwhile Senator Deneen, realizing that the contest before him will probably turn out to be the hardest in which he has ever engaged, is not likely to be idle. The next six months are expected to witness some very exciting campaigning, with the result in doubt until the close of the primary."

"Daughter of Mark Hanna of Ohio, with whom political victory became a confirmed habit, and widow of the Illinois senator whom the present incumbent defeated for re-election," states the SALT LAKE CITY DESERET NEWS, "Mrs. McCormick is scarcely less capable as a politician than either of them. Senator Deneen, past master of the game though he is, will have the satisfaction of knowing that he is not as vigorous in applying the lash to the 'bimbos' as you were two years ago. Why not give it to them good and strong, like you used to, and pay no attention to criticism that may come from a few sensitive 'weak sisters'?"

The World AND THE Mud Puddles

TWO COULD PLAY.

A young man taking a course in flying proved an excellent pupil in putting a dual control plane with the instructor in the side. When the instructor showed little dexterity in landing the machine.

The instructor finally came to the conclusion that the student-flier was "stringing" him as to his ability to land the plane and decided to give the youth a test which would apparently place upon him the entire responsibility of bringing the machine to earth.

He confided to some friends that on the next flight he was going to take an extra control stick along and when up several thousand feet would show it to the student and throw it overboard. He believed that the young chap would then show his stuff. This looked too good a joke to the friends so they imparted it to the student who promptly provided himself with an extra stick. When on the flight the instructor tossed his stick over with a flourish, the student immediately produced his extra stick and to the consternation of the instructor did the same thing.

On this startling development the instructor forthwith joined the Caterpillar club by making a parachute landing.

Many Who Scoffed; Not So Intelligent

During the so-called "hex" murder trial some months ago much scorn was pointed at the ignorance which was responsible for the crime. It so happened, however, that many of those who were deriding the situation were not quite so intelligent as they considered themselves to be. Dr. Theodore H. Appel, state secretary of health, today.

"There are yet many superstitions which in quality, if not in intensity, are just as bad as the 'hex' idea. And to make matters worse, there is not the excuse of ignorance to support them. Indeed, these misconceptions are harbored by thousands who have education and sound reasoning power.

"For example, many thousands of parents are still of the opinion that whooping cough, measles and other 'catching' diseases should be caught early and thus be done with, that cancer is a communicable disease, that tuberculosis is an inherited malady, and that tonic can effectively supply the physical necessities of fresh air, proper food, adequate sleep and daily exercise.

"As a matter of fact, the childhood diseases should be guarded against with the utmost caution. They kill thousands of little people each year. Again, while cancer is not a communicable disease and carries no personal stigma of any kind, early diagnosis of probable symptoms such as lumps, unusual bleeding and persistent sores should be made by a physician. Many lives can thus be saved. Tuberculosis also needs early discovery for favorable results. Therefore, a persistent cough or a consistent loss of weight should promptly be investigated. And finally, the basic living laws need to be carefully and regularly followed if life is to attain its highest degree of vigor and vitality.

"If you are so inclined, poke fun at unfortunate ignorance. But in the first place turn the light upon yourself to make sure that it is not also playing devilizing tricks on you, and that tonic can effectively supply the physical necessities of

Boy Scouts To Speak Of Trip

Friday morning in the auditorium of the senior high school a Boy Scout assembly will be held. It was announced by Principal F. L. Orth of the senior high school today.

The Boy Scouts who went to the England jamboree will be present on the stage. Several of these will be called on to speak. Harry Book will be in charge of the program.

Man Missing For Week Found Dead

BRADFORD, Pa., Oct. 8.—The body of Allen Steamp, 39, of Martin avenue, Bradford, who has been missing since last Sunday, was found by Boy Scouts yesterday near Shaw Hollow.

According to the coroner, who was called to the scene, the man's face was badly crushed, his skull was fractured and his neck was broken, indicating that the man had fallen from a chestnut tree.

That Brutal Overseer Roasts in Hades!

AN ANCIENT PREJUDICE HAS BEEN REMOVED

Wise legislation has halted the ancient prejudice that dictated the exploitation of child labor for selfish gain. Guided by AMERICAN INTELLIGENCE it has routed greed. No longer are little children forced into slavery.

"toasting did it"—

Gone is that ancient prejudice against cigarettes—Progress has been made. We removed the prejudice against cigarettes when we removed harmful corrosive ACRIDS (pungent irritants) from the tobaccos.

YEARS ago, when cigarettes were made without the aid of modern science, there originated that ancient prejudice against all cigarettes. That criticism is no longer justified. LUCKY STRIKE, the finest cigarette you ever smoked, made of the choicest tobacco, properly aged and skillfully blended—"It's Toasted."

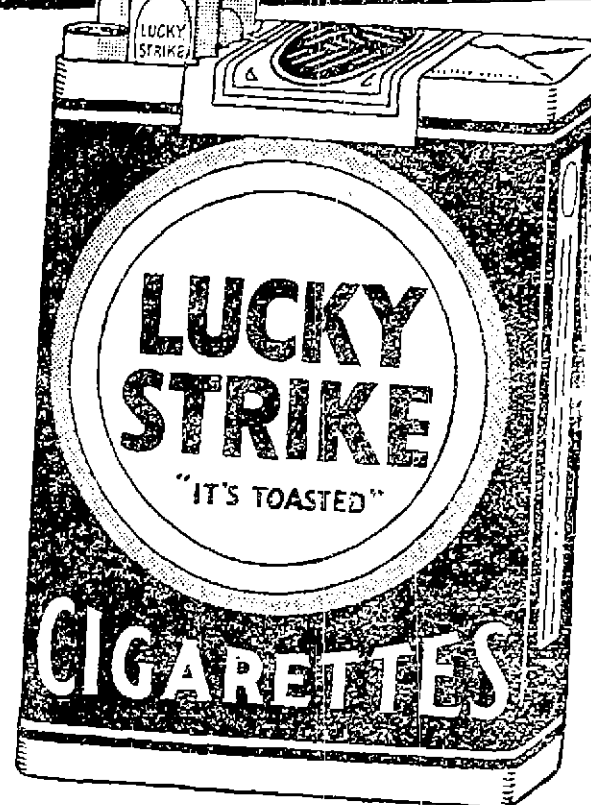

"TOASTING," the most modern step in cigarette manufacture, removes from LUCKY STRIKE harmful irritants which are present in cigarettes manufactured in the old-fashioned way.

Everyone knows that heat purifies, and so "TOASTING"—LUCKY STRIKE'S extra secret process—removes harmful corrosive ACRIDS (pungent irritants) from LUCKIES which in the old-fashioned manufacture of cigarettes cause throat irritation and coughing. Thus "TOASTING" has destroyed that ancient prejudice against cigarette smoking by men and by women.

"It's toasted"

No Throat Irritation—No Cough.

"It's Toasted"—the phrase that describes the extra "toasting" process applied in the manufacture of Lucky Strike Cigarettes. The finest tobaccos—the Cream of the Crop—are scientifically subjected to penetrating heat at minimum, 260°—maximum, 300°, Fahrenheit. The exact, expert regulation of such high temperatures removes impurities. More than a slogan, "It's Toasted" is recognized by millions as the most modern step in cigarette manufacture.

Bo Broadway

by JOSEPH VAN RAALTE

By Central Press.
NEW YORK, Oct. 8.—He's a tall, gawky man, gaunt as Don Quixote—an introvert, with all the term implies. He stalks through the theater district at the peak of traffic holding tight to a dummy—a flattered fragment from an ash heap. At first glimpse he looks like a heart-broken father hurrying to the hospital with a mangled baby. Perhaps it's a publicity stunt. Among the thousands who turn to start at him there may be a "discerning" booking agent, or he may be merely a nut, pulling a third carbon copy of "The Great Gabbo."

INSIDE STUFF
The smallest telephone booth in New York is located under a cigar store in the Times Square district. There are two instruments in the pigeon coop by means of which the operators of sight-seeing busses get word from Chinatown when to "shoot" the next load of tourists.

NOW, NOW!
F. P. A., the Whom-orist of Park Row, in an article in the New Yorker, quotes late Bert Lession Taylor as saying "there are no dull stories, only bored reporters."

And what becomes of "bored reporters"? They become Whom-orists, of course.

NOW TRUE
Toto, muster down, now "knocking 'em dead on Broadway," is a blond-haired Triton whose English is not quite as flexible as his legs, which, when the spirit moves him, he can wrap around his Adam's apple. And here's the Duke's comeback: "I feel like a worm, thrust beneath the hoofs of a passing jackass."

That's a tough way for a lad to feel who has just finished writing a book on "The Psychology of Happiness."

MORE INSIDE STUFF
Old Doc Pickin of Columbia University went to a lot of trouble to write a book called "The Psychology of Happiness," in which he made some sassy references to the late Woodrow Wilson. He said among other things that Wilson "suffered from hidden constitutional infirmity," and beside that, was "a person temperamentally cursed to unhappiness."

KIDNEYS SELDOM FREE FROM POISON
Clean Them Out And Backache, Sideache And Bladder Troubles Go.

It's mighty close to the truth to say that there are ten thousand apparently healthy people in America today, who will have kidney disease, dropsy or some form of kidney disease in two months.

If you have backache, or the slightest suggestion of backache, don't take chances. Get a bottle of Thompson's Barosma today and give your kidneys a thorough cleaning. They probably need it. If they don't, Thompson's Barosma is a good tonic anyway and will do you good. Price \$1.00.

Thompson's Barosma is guaranteed to relieve kidney or bladder disease, no matter how distressing, or money back. Put up in liquid form, is quickly assimilated and goes directly to the seat of trouble. The very first course should make your sick kidneys feel better, but bear this in mind when of constipation is present. Golden Lax Tablets should also be used. 25c and 50c. When BABIES are upset

Baby ills and ailments seem twice as serious at night. A sudden cry may mean colic, or a sudden attack of diarrhea—a condition it is always important to check quickly. How would you meet this emergency—tonight? Have you a bottle of Castoria ready? There is nothing that can take the place of this harmless but effective remedy for children, nothing that acts quite the same, or has quite the same comforting effect on them.

For the protection of your wee one—for your own peace of mind—keep this old, reliable preparation always on hand. But don't keep it just for emergencies; let it be an everyday aid. Its gentle influence will ease and soothe the infant who cannot share its mother's regulation with you. Its mild action is gentle and effective. All children have Castoria; the genuine bears Chas. H. Fletcher's signature on the wrapper.

Bears Are Stopped In New York Market—Steels Lead

By W. S. COLEMAN
International News Service Financial Editor

NEW YORK, Oct. 8.—Industrial stocks swung upward over a broad area today after Bears were stopped, thwarted in new efforts to start the market downward.

Again the Steels returned to leadership, with U. S. Steel selling above \$21 and Bethlehem above \$20.

Bears looking for "weak spots" directed a heavy fire against U. S. Steel common and Westinghouse, but these issues snapped back quickly. The same was true of Radio, which had the support of a powerful Chicago Bull.

Further scaling down of the time money rate to 8 3/4 per cent with call money in supply at 5 per cent, emphasized the steady improvement in the money market.

Most of the oil stocks continued the upward move which started on Monday. Standard of New Jersey moved along 8 1/4. Slightly higher prices were quoted for Atlantic Refining, Phillips Petroleum, Royal Dutch and Texas Corp.

United States Steel, after dropping back to 21 1/2 in the forenoon, pushed up to 22 1/4 in the third hour. Westinghouse jumped 1/2 to 23 1/2, and American and Foreign Power sold above 16 1/2.

Utility stocks and specialties moved up sharply in the early afternoon, under the stimulus or strong investment buying and short covering.

Eastman Kodak sold at 26 1/2, for a new gain of 10 points for the day and 40 points on the move. Brooklyn Union Gas led the utilities with

a 7-point jump to 22 1/2, and Electric Power and Light moved up 1/2 to 72. Railroad and Motor stocks mounted to best level of prices since the big-break started, nearly a week ago.

Rules For Wife Are Too One Sided

NEW YORK, Oct. 8.—When John Skolnick, Brooklyn, was married he laid down these five commandments for his wife to obey:

You are to remain home all hours of the day. No running around.

You are to have no friends visit you. This includes your mother.

You are to keep the house spotless and clean.

You are to keep all secrets of the house to yourself.

If you want to be happy, remain at home.

He posted them in her bedroom and for one whole year Mrs. Skolnick made the best of the situation, trying to live up to them. But she broke all five of them at once when she learned John was becoming attentive to another woman. More than this, she promptly sued him for divorce and will likely get it.

Boys Legs Serve As Bait For Fish

COUDERAY, Wis., Oct. 8.—A pair of bleeding legs belonging to five-year-old Buddie Houlihan bore witness to the prize "fish story" of the season here.

Buddie's screams from the pier where he sat dangling his feet in a lake brought his father to his side in time to frighten away a large muskellunge that was biting the boy's legs.

Yet a square peg in a round hole can fit in with complete success if it will develop in the right way.

VENANGO MAN APPEALS CASE

Cashier Claims Jury Which Convicted Him Was Prejudiced

PHILADELPHIA, Oct. 8.—The superior court yesterday heard argument on the appeal of Edmund Flick, former cashier of the Citizens Bank of Pleasantville, Pa., from his conviction and sentence in the quarter sessions court of Venango county last May on a charge of forgery of the name of Forrest B. Kuhns, a contractor, to a note drawn on the bank for \$1,200.

Flick was sentenced July 8 to two to four years in the western penitentiary. The defendant contended at the trial that Kuhns authorized him to sign his name to the note, but Kuhns denied this.

Flick's trial was complicated by the robbery of the bank and burning of records by Sylvester Watson, negro, who pleaded guilty to robbery and arson and said he committed the crimes at Flick's request. The jury acquitted Flick of these charges, but convicted him of note forgery.

The appeal was based on the ground that the jury was prejudiced by irrelevant evidence and references of the trial judge and district attorney to the charges of which Flick was acquitted.

Surprise Dam Built By Beaver Family

Michigan Farmer Discovers Great Engineering Feat By Animals

MOUNT CLEMENTS, Mich., Oct. 8.—A new family has moved to Macomb county—a family whose ancestors have been known for years as good, steady, hardworking individuals who tend strictly to their own affairs.

This family consists of Pa and Ma Beaver and the kids. They were discovered about six weeks ago on the old William Inwood farm, about four miles southeast of Romeo.

Howard Inwood, whose sister Mrs. W. S. Eastwood of Pennsylvania, now owns that section of her father's farm, discovered the beavers' handiwork when he went on a tramp through the swampy underbrush-covered part of his sister's property. Inwood, a nature lover was walking with another Romeo man along the banks of a stream which divides the Inwood farm from that of O. W. Thompson, when he saw pieces of what looked like a recently chopped poplar tree on the ground.

Because beavers have disappeared from this section in recent years, driven further and further into the north—it did not dawn on him immediately that distinguished tenants had set up their abode there. Discovery of the rudiments of a dam across the stream a short distance away, told the story unmistakably.

The beavers showed remarkable intelligence in picking out their new home site, for it is one of the most accessible spots in all of Macomb county. It is well away from any road and may be reached only by pushing through heavy underbrush, which is well populated with rattlesnakes.

BOYS STEAL CANDY AT FREIGHT STATION

According to the report made late Monday afternoon to the police by Gordon McKay who is employed at the P. and O. freight station on South street a number of boys broke into the station Sunday and stole two buckets of candy. The names of the boys involved were furnished the police who are investigating.

New Water Process

C. ARTHUR BROWN

A new method of water coagulation which may revolutionize the water works industry throughout the world has been developed by C. Arthur Brown, of Lorain, O. Iron sulphate can be obtained more cheaply and permits better purification than the present method of alum mixed with caustic iron, Brown claims.

New Church Head

The Rt. Rev. William A. Leonard, bishop of the Episcopal diocese of Ohio, has become titular head of the Protestant Episcopal church of America with the death of Bishop John Gardner Murray at Atlantic City. Bishop Leonard is to call a meeting of the house of bishops in November to elect a permanent ranking ecclesiastic.

AT HOSPITAL
Miss Hazel Littenburg, who underwent an operation at the Jameson Memorial hospital for removal of tonsils and adenoids, was brought to her home here Sunday morning.

HURT BY TRACTOR
Mr. John Shaw and son, Harold, were badly injured on Friday afternoon while enroute from Preston Zimmerman's to Roy Orr's with an ensilage cutter drawn by a Fordson tractor. The tractor became unhitched from the ensilage cutter and while taking this the tractor being left in gear, was started by the vibration of the engine, knocking Mr. Shaw down and running over Harold before it could be stopped.

Both were rushed to the Mercer hospital where it was found that Mr. Shaw was not seriously hurt but had a badly injured foot and received injuries in his back and was suffering from the shock. Harold, while no bones were broken, had a badly mashed foot and the flesh badly torn on his leg up to the hip.

Mr. Shaw was able to be removed to his home Sunday evening but Harold will be confined to the hospital for several weeks yet. Their many friends wish them a speedy recovery.

VOLANT NOTES

To Make Inexpensive Glassware Sparkle Like Costly Kind

Simple New Way Does Wonders and Is Kind to Pretty Hands—Use Any Kind of Soap

Even the most inexpensive table china and glassware can be made to look far better than its price in a simple way. It can be given the brilliancy and sparkle of the most costly kinds, and glassware particularly is judged by its sparkle.

Simply add one teaspoonful of the cleansing preparation called CLEAMER to your water. Use the same soap you ordinarily do, but use only ONE-FOURTH the usual quantity. Wash as usual.

This preparation is a grease dissolvent, while soap is, strictly speaking, a grease. So it gives shine and sparkle while soap often leaves a greasy film that's hard to get rid of even with the most careful drying.

Most hotels use this method to make

glass and china gleam. Housewives like it not only for this reason, but because it acts to soften and whiten skin fabric of the hands.

Results are surprising. Try it. Get at any grocery store in 10c or 25c package. Just ask your grocer for CLEAMER.

Bible Most Popular Book On Prison Shelf

Of 300 Works In New Castle, Del., Institution, Scriptures Lead

WILMINGTON, Del., Oct. 8.—With at least 300 books in circulation at all times among the 500 or more prisoners the library of the New Castle County Workhouse at Greenbank is reckoned one of the best of its kind in the country.

Since the library was opened March 1, 1927, 22,207 books have been loaned to the inmates of the institution.

There are now 4,000 books on the library shelves awaiting call, while about 5,000 others are being kept in a storeroom. Of all the books the Bible is the most sought after of any individual book.

The most popular books among the prisoners are western detective and world war stories. Their favorite authors include Zane Gray, Fats Satterlin and Hall Caine. Among recent books which have been loaned extensively are "Life and Death in Sing Sing" by Warden Lewis of Sing Sing, "You Can Win" by Jack Black and "We" by Colonel Charles A. Lindbergh.

RENOVATED TRUNKS Old trunks can have their look improved and themselves made waterproof if you want and finish them with automobile varnish.

Since the library was opened March 1, 1927, 22,207 books have been loaned to the inmates of the institution.

Several months ago Spengeman began to interest himself in his sister and wrote a series of letters to relatives and neighbors, accusing her of treating her stepmother in a "bestial" fashion and characterizing Mrs. Knapp's life with Mrs. Small as "bondage in slavery."

MINNEAPOLIS, Oct. 8.—Mrs. Agnes Miller, widow, of Minneapolis, has so many hungry relatives with large families who take advantage of her well stocked larder, that she has gone to court in an effort to get away from them.

The means she seeks is to change her name to Agnes Sullivan and then move to a new home. She petitioned the district court to grant the change. She has three children.

SUMNER AVENUE CHICKENS KILLED C. J. Lang of 517 Sumner avenue, had the misfortune last night to have 33 fine chickens killed. From the condition of the chickens when found this morning a weasel is responsible for their death.

Called Witch, Hexer, She Sues For \$60,000

Stepuncle Said She Has "Beastly Master" Of Her Step-mother

NEW YORK, Oct. 8.—Because she was called a "witch," a "hexer" and a "beastly master of her stepmother," in letters to relatives and neighbors, Mrs. Charles F. Small of No. 60 Second street, Hackensack, N. J., a former school teacher, has filed suit against George Spengeman of Ridgewood, N. J., a retired pattern maker, silk manufacturer, the brother of Mrs. Small's stepmother, Mrs. Louis Knapp, for \$60,000, charging libel and defamation of her character.

Mr. and Mrs. Paul L. Tillia attended the Harvest Home day of the Cheverton Christian church on Sunday.

Mr. and Mrs. John Snyder of Franklin were dinner guests at the home of their daughter, Mrs. W. J. Wilkin on Sunday.

Mr. and Mrs. C. L. Hunt and family were Sunday evening visitors at the home of Mr. and Mrs. J. B. Moore of East Brook.

Interest Group Meeting Had By Girl Reserves

Senior High Girl Reserve Club Holds First Interest Group Meeting

The Senior High School Girl Reserve club had their first interest group meeting of the year Monday evening in the Y. W. C. A. A fine attendance of members was present.

Devotionals were in charge of Miss Louise Fink. Subject "The Road to Happiness." Music was in charge of Miss Julia Sidley. After the opening exercise Miss Edith Burdick explained to the girls what the Girl Reserve ring was and what the ring stood for.

Following this the girls divided into the several interest group meetings.

There is a music appreciation group in charge of Miss Isabel Zehner in charge of the Glee clubs at Senior High.

Clog dancing interest group is in charge of Miss Dorothy Patch. Handicraft group was so large it had to be divided into three separate groups. Miss Martha Smith is in charge of the whole group and will

take charge of the group making cuddle toys. Miss Burdick is in charge of the leather handicraft and Miss Ethel Kelly in charge of the silver handicraft.

Dramatics is another of the interest groups and will possibly be in charge of Mrs. W. A. Mayberry. A music group for learning Girl Reserve songs will be in charge of Mrs. William Caldwell.

Like Lawrence Co. Jail In Preference To Other Prisons

When it comes to going to prison Julian Kaufman and Edgar A. Nelson prefer the Lawrence county jail to any which they have seen. Kaufman and Nelson were arrested by federal authorities for the larceny of an automobile at Chicago.

They were found in this county, taken to Erie, then to Pittsburgh, where they were sentenced to six months in jail. When given a choice as to where they would serve they agreed that the Lawrence county jail was the cleanest and best they had tried. They also stated that the food here is better than in the other prisons, according to Deputy Sheriff William Reynolds.

Arguments Are Made For Two New Trials

Arguments for a new trial were heard at court Monday afternoon in the case of Matthew Mush, who was convicted on a charge of handling narcotics. Since his conviction Mush has been out on bail.

Arguments for a new trial were also heard in the case of the Commonwealth against S. A. Levin, who was convicted on a charge of obstructing a legal process. Levin attacked Deputy Sheriff Musser who went to the Levin home to serve an execution.

DeArment Goes To Visit Erie Lodge

Walter C. DeArment, district deputy grand exalted ruler of the Benevolent Protective Order of Elks for northwestern Pennsylvania, left for Erie this morning, where he will make his first visit to the Erie B. P. O. E. lodge, No. 67.

Mr. DeArment was but recently named to this position and the Erie trip marks the first official district deputy's visit since he assumed the post.

Complete Plans For Celebration

Program For Gen. Pulaski Memorial Event On Sunday Announced

PULASKI CLUB TO HAVE BANQUET ALSO

With one or two additions, the program of the Pulaski memorial celebration, scheduled for the Carnegie auditorium Sunday afternoon, Oct. 13, at two o'clock, is complete. A meeting of the general committee held Monday evening brought the program to near completion and the finishing touches are expected to be added today.

Major Guy J. Wadlinger, who will act as chairman of the day, stated that several local speakers would be on the program, among them Judge James A. Chambers, Mrs. James T. Ray, regent of the Daughters of the American Revolution, and one other. Vice Consul Kubisch of Pittsburgh will also speak, and his address will probably be in the Polish language.

E. & A. Band to Be Present

For music for the afternoon the Erie and Ashtabula Division band of the Pennsylvania railroad will be present and special numbers will be presented by each of the three Polish schools here. An invitation has been extended to Chief Justice Robert von Moschizsker of the Pennsylvania state supreme court, but he is unable to attend.

The celebration will start at two o'clock in the Carnegie auditorium and will be open to the general public. It is hoped that the event will attract many people other than those of Polish extraction, as the celebration is a part of the national celebration set down by President Herbert Hoover in his proclamation of June 26th.

In that proclamation he ordered the flags to be run up over the government buildings, and it is hoped that private citizens will also display their flags on that day.

The program for the celebration here has been in the hands of a committee headed by John C. Wajert and the work of this committee should be rewarded with a crowd that will tax the auditorium to capacity.

Sunday evening the Pulaski Club of Oakland will hold a banquet in their club rooms, with covers being laid for about 350.

Fortune Tellers In Paris Reap Harvest

PARIS, Oct. 8.—Parisians spend about ten thousand dollars every day for consultations in astrology, sight-seeing, magnetism, card-reading, palmistry and occultism, according to recent figures reported by a clerk in the French civil service. This business is carried on in about 34,600 different establishments, largely in tiny, dingy apartments to which one climbs by three or four flights of very narrow stairways.

Many old women who read palms and tell the future from tea leaves carry on an important business in their own houses, unbeknown to the Paris police, and tax-collectors. Most of their clients are young girls and women who are having intricate love affairs.

FINED FOR SHOOTING

"WONDERFUL—IS WHAT I SAY OF MODERN KONJOLA"

Konjola Again Victor Over Stubborn Allment—Stomach Trouble Quickly Ended By New And Different Medicine.

MISS ISABEL DUNDON

"My stomach had been causing me a great amount of trouble for some time," said Miss Isabel Dundon, 230 East Sixth Avenue, Norristown, Penna. "I was a victim of nervous indigestion. I had to be very careful in choosing what I ate. This formed after every meal, and caused wild heart palpitation. I did not care to eat. I knew suffering was bound to follow."

"I must say that Konjola is a wonderful medicine. Improvement came with the first bottle, and in a very short time my health troubles were over. My appetite has returned and I can eat just about everything I care to without suffering afterward. One of my stomach troubles is a thick oil, and my heart does not bother me in the least. I sleep well at night, and the morning always finds me rested and refreshed."

Konjola is sold in New Castle at all the best drug stores and by all the best druggists in all towns throughout this entire section.

The New UNIVERSAL Washer and Dryer

Damp-dries Without a Wringer

The proud owner of a UNIVERSAL Washer and Dryer is entirely freed from the annoyance of guiding an endless string of wet clothes through clumsy wringer rolls and sewing on missing buttons. A new wonderful dryer saves her this work by taking a full load of clothes and whirling them damp-dry in three minutes, faster and more evenly than any wringer can, and with complete safety both for the clothes and for her.

In Many Other Ways, Too, This Washer is the Last Word in Home Laundry Service

Empties Itself Electrically. A small electrically driven pump forces the suds water out of the tub via the drain board, thus putting an end to all lifting of heavy water pails.

New Improved Safety Agitator. The fastest and most thorough cleansing action known is at last made safe for the clothes through UNIVERSAL refinement of design.

Safe All moving part are inclosed. Dryer cannot start until cover is securely fastened. In every respect this new UNIVERSAL Washer and Dryer is positively safe for the operator and curious children.

Seeing is Believing

The New Universal Washer and Dryer is so new in principle and miraculous in results that you must see it in action to appreciate its great worth. Let us place it in your home for a week's free trial without obligation or delay. Learn by comparing—telephone us today.

Listerine Tooth Paste, 25¢.

Women are delighted

Listerine is a natural astringent, its formula being basically similar to that of scented astringents costing from 2 to 5 times as much.

Women by the thousands have used it and say that it achieves excellent results in the treatment of enlarged pores, oily skin, and flabby face muscles.

Moreover, it's a safe antiseptic, capable of destroying the most powerful disease germs, so that when you use it you know you are protecting yourself against possible skin infections.

Men use it after shaving

Listerine doused on the face full strength after shaving, imparts a wonderful sense of invigoration. Wakes up the skin. Ends rawness and burning, and leaves the face with a wonderful sense of coolness. Lambert Pharmaceutical Company, St. Louis, Mo., U. S. A.

Local Drum Corps Visits Grove City

Many of the members of the Con-
sistory Legion of Honor bugle and
drum corps paid a visit to Grove City
last evening where the Grove City
Legion post was host to a number of
the surrounding posts in the district
at a Legion rally.

Bugle corps were present from
Sharon, Mercer, Greenville and Slip-
pery Rock and the visit was a most
profitable one to the members of the
local outfit.

RIDES IN PLANE IN NINETIETH YEAR

PUNXSUTAWNEY, Pa., Oct. 8.—

Mrs. Martha A. Robinson of this city
took an airplane ride yesterday with
James Ritter of Johnstown, it being
the 90th anniversary of her birth.
She was accompanied by her great-
grandson, James Miller Hoover, of
Pittsburgh.

Mrs. Robinson retains all her ac-
tivities and is in excellent health. She
liked the experience.

FOUR ARE INJURED IN AUTO ACCIDENT

BEAVER FALLS, Pa., Oct. 8.—Four
persons were injured along the New

by bright lamps ran off and crashed
in a ditch. Clarence Williams, 30 and
Fannie Ebert, 44 were treated at the
Providence hospital. William Johnson,
27, New Brighton and Mrs. Mary
Sanford, 33 Beaver Falls were treated
for slight injuries.

Canalization Of Upper Allegheny Plan Of Cochran

Mercer Congressman Sponsors
Movement To Open River
To Navigation

MERCER, Pa., Oct. 8.—Making the
Allegheny River navigable from War-
ren to Pittsburgh is the plan and pur-
pose of an organization just formed
in northwestern Pennsylvania known
as the Upper Allegheny Association.
Briefly the plan calls for an ex-
penditure of money estimated by
Congressman T. C. Cochran of Mer-
cer who is its sponsor, of \$50,000,000
to be spent by the federal government
in the construction of a series of dams
and locks with spill-ways to take care
of the flood situation from Redbank
north to Warren. Contracts have
been let now for eight such dams
from Pittsburgh north to Redbank
a distance of 65 miles. The remain-
ing 130 miles to Warren is included
in the plan of Mr. Cochran for his
district, the 28th Pennsylvania in-
cluding the counties of Warren, Ven-
ango, Forest, Elk and Mercer through
which the river winds its course for
nearly a 100 miles.

Friends of the project met recently
at Oil City and organized. This is
just the start, backers of the project
say. Congressman Strong of the
River and Harbors committee of the
house from Armstrong county attend-
ed and is reported strongly in favor
of this construction program. The
building will take a number of years
but when completed it will mean that
the river territory will be removed
from floods at periodical intervals
and that an avenue of cheap trans-
portation will be opened up, which
will mean the real development of
the country touching on the river,
rich in natural resources.

RURAL PUPILS ON VACATION

This is the week of potato gather-
ing for rural kids and nut picking for
town kids. The reason behind all
this is the holding of the county 76th

school children in 46 county districts
numbering 30,000. Following this
week the major portion of the pota-
toes in Mercer county will be dug and
a price will be established.

SCHOOL NEARS COMPLETION

The auditorium on the school
grounds here is fast nearing com-
pletion. The concrete floor is to be
poured and the furniture installed
and the building will be ready for
use.

Within a very few days now the
building will be all finished and ready
for occupancy.

CONTAGION DRAGS

For the week ending the 5th, eight
cases of communicable disease were
reported at the health bureau office
here.

There are three cases of Chickenpox
in Sharon, two of Whooping Cough
in Farrell and Sharon, one of Diphe-
theria and one of Measles in Sharon
and one of Tubercular Meningitis in
Farrell.

For the same period of time a total
of 17 were released from quarantine.

CASES ARE ARGUED

At the October Motion and Petition
Court held Monday, Judge J. A. Mc-
Laughlin disposed of eight hearings
scheduled for the date. The major
portion of them will be heard during
the month. The most important of
the group is the argument of counsel
in the action of the Jamestown Metal
Company vs. Roy Knofsky in which
the plaintiffs are collecting for metal
furniture sold the defendants. The
case has already been reviewed by the
state supreme court. It is held that
the defendants gave a mis-statement
of their financial standing to a rating
company.

Bridal Night Spent In Jail By Husband While Bride Weeps

MILWAUKEE, Oct. 8.—Walter
Dunham, 23 years old, member of the
Tulsa, Okla., Western League baseball
team, the past season, awoke in a cell
at the city jail here today, having
spent the first night of his married
life there because of an unromantic
policeman.

Dunham married Miss Grace Beth-
ke, 19 years old, at Waukegan, Ill.,
yesterday afternoon. Returning to
Milwaukee last night, their auto
crashed into another machine. A po-
liceman who witnessed the collision
arrested the bridegroom on a charge
of reckless driving. Despite the
bride's tearful pleas the new husband
was taken to the station.

The new bride was not held, but
she faced the task of breaking the
news of the wedding and the mis-
fortune of her husband to her par-
ents.

Dunham was fined \$25 and costs
by Judge George Page today.

New Hope Is Seen For Canalization Of Local Rivers

Celebration At Cincinnati Is
Expected To Stimulate
Extension To This
Area

ESTIMATE PROJECT
COST AT 20 MILLIONS

According to advices from Washington, backers of the proposed extension of the Ohio river navigation system to New Castle and Youngstown will see renewed stimulus given the movement by President Hoover's appearance at the ceremonies in Cincinnati on October 22, marking the completion of the navigation work on the Ohio river from Pittsburgh to Cairo.

The construction of a canal from Lake Erie to Pittsburgh has been planned for a great many years, and although early realization of this project is not likely, many congressmen and government officials believe that the canal system will be extended from Beaver to New Castle and Youngstown in the near future.

Intense interest is being displayed in this section of the state and in the Youngstown district, because of the active interest stirred up by the New Castle Chamber of Commerce, who are calling a meeting at an early date of representatives of various surrounding cities and towns who would be affected by this extension of the Ohio system.

Ten years ago congress authorized a preliminary survey made of the possible routes for canals to connect Lake Erie and the Ohio river and the war department engineers investigated two possible routes. The first was from Ashabula to Pittsburgh via the Mahoning and Beaver rivers. Others were from Cleveland to Marietta via the Muskingum, Tuscarawas and Chagahoe rivers; from Sandusky to Portsmouth via the Scioto and Sandusky rivers; and Toledo to Cincinnati via the Miami, St. Mary's, Sandusky and Maumee rivers. In 1921 the war department reported that all these routes were feasible, but that the Ashabula to Pittsburgh route offered better prospects for a justifiable waterway than any of the others, and recommended that further investigations be made with respect to certain economical features.

At the time of the report, the estimated cost of such a canal was placed at \$75,000,000. However, the cost based on present prices would be much higher, it is stated. The cost of the extension as far as Youngstown, however, would be considerably under this figure.

Only nine locks would be required

to make the system navigable as far as Youngstown. Based on the cost of making the Ohio river navigable it is believed that the system could be built to Youngstown from the Ohio river for approximately \$20,000,000.

In 1924 the Pittsburgh Chamber of Commerce appointed a provisional canal committee which raised \$50,000 by subscription and expended it in making a survey. The route selected as a result of this survey was practically the same as the one agreed upon in 1921 by army engineers as being the most feasible.

The route joins the Ohio river at the mouth of the Beaver river and follows it to its juncture with the Mahoning through Youngstown to Niles. From Niles the valley of Musquito creek is to be followed for nine miles where a summit level reservoir is to be constructed.

Army engineers state that from this point Lake Erie can be reached either by way of Indian creek or Red Brook creek.

Bill introduced by Senator David A. Reed and Representative J. Howard Swick of Pennsylvania, to provide for a survey of the Beaver and Mahoning rivers with a view to further extension of the Ohio river system are now pending before congress.

"Flying Grandmother" Is Called By Death

Oldest Woman In Massachusetts,
103, Dies Of Heart Trouble;
Liked To Fly

(International News Service) CHICOPEE FALLS, Mass., Oct. 8.—The oldest woman in Massachusetts, Mrs. Almada Bennett, 103, the "Flying Grandmother," died of heart trouble at her home here today following an illness of several months.

Mrs. Bennett gained national fame by taking her first airplane ride from Portland, Me., to Boston by her 95th birthday and one annually since.

Several Accidents Reported To Police

Among the accidents reported to the police in the past few hours are the following, in which damage was done to several automobiles:

James Osso, Campbell, O. reported that he was en route south on South Mill street and following a truck of the Rieck-Molunkin Dairy Company. At Grove street the truck made a turn to the left into that street without a signal and the Osso car ran into the truck, causing some damage to both cars.

John McDevitt of 501 Uber street reported that he was driving the car of Regis Flanagan of Pine street east on West Washington street at Beaver street, when a truck of the Keystone Transfer Company, driven by a H. A. Shaw of R. D. No. 5, going west on Washington street, made a left-hand turn into South Beaver street. This caused McDevitt to run his machine into the truck, causing damage to both machines.

Oscar Greene of 433 East Long avenue reported that he was en route south on South Mill street south of Phillips street. William Graham of 1318 Pennsylvania avenue was en route in the same direction, behind the Greene car. Mr. Greene drove in to the curb and as he did so the Graham car hit the rear of his machine, causing damage to both.

Ray, 133 Wallace avenue which was stolen from in front of the Treadwell News Company office 342 Neshannock avenue Saturday evening between 8 and 9 o'clock. As yet no trace of the car has been reported to the police.

FATHER SEEKS TO FIND DAUGHTER

E. P. Gurney of Slippery Rock, Pa., has asked the assistance of the police in locating his daughter Miss Luella Gurney, aged 16, who resided at 15 West Falls street and was employed here, who left this city last Friday.

GIVEN STIFF FINE
O. S. Henderson, arrested in the Whippo street district by Officer Flinnor on a charge of disorderly conduct, was assessed a fine of \$15 by Mayor Gillespie.

Ingrown Nail Turns Right Out! Pain Stops Instantly!

"Outgro" is a harmless antiseptic manufactured for chiropodists. However, anyone can buy from the drug store a tiny bottle containing directions.

A few drops of "Outgro" in the crevice of the ingrowing nail reduces inflammation and pain and so toughens the tender, sensitive skin underneath the toe nail, that it can not penetrate the flesh and the nail turns naturally outward almost over night.

Some News, Some Views, But
Mostly Just Observations
Of Interesting Things
Around New Castle

As this is being written, the skeleton of the World Series board is rising out in front of The News, a mute invitation to about six afternoons of roaming around the back of it, turning the jinglies that make it go. And beginning today, Mercer street will be the place to spend an afternoon. You're invited, but don't expect any plush covered seats.

It is quite a board. The News World Series board, and after running it for nine series, a fellow begins to feel more or less at home in back of it. And always the same things happen. A man is thrown out at second base and in the confusion the wheel turns to third base. Comes the roar of a couple of thousand fans who are watching the board closer than a Wall street operator watches the ticker.

Mistakes happen, which is one reason why they put mutes under cuspidors, and they will probably happen this series. Not intentionally of course, but they'll happen anyway.

Tomorrow the Legion holds a frohe out at the Field Club with a golf tournament, a dinner, a trap shoot (I not C), a dinner and then a dance. A regular up and coming affair with the lads who once swung rifles swinging mashes and nibbles. The manual of arms for a golf club is different than the manual prescribed by the Infantry Drill Regulations, and there is no deflection or windage arrangements on a putter.

The language is about the only thing in which there is a similarity.

Then on Sunday comes the Pulaski celebration in the Carnegie Auditorium. This is a memorial that you should attend. It will honor the memory of one of the men who made possible American freedom. General Pulaski. A Polish gentleman, a soldier, and a hero. Regardless of where your forefathers originated, you can well afford to attend the memorial in the auditorium.

Some of you folks who attended those "little red schoolhouses" in the old days would be surprised to inspect a few of the new, consolidated schools in this county. The Union Township school is an example. Move it into the city and it would fit most any place. Auditorium, laboratory, domestic science room, library, play rooms, everything that goes to make up a good school is there.

The teachers of the county are holding their annual institute there this week and the Union Township school is a busy place. Educators holding conferences, book and supply agents showing their wares in the hallway, teachers rushing around looking for the proper conference room, and from the basement an odor of good food tantalizing some of us who happen to be roaming around the building.

School teaching is on a mighty substantial basis in this state now. The state appropriation for schools in the two years beginning June 1, 1929, is \$87,000,000.00 some odd dollars. Add to this the cost of local schools and you find that very boy and girl in school today represents an outlay of about \$125.00.

ADVANCE INFORMATION
For Sunday, Oct. 13, Octavus Roy Cohen has written a story for the brilliant new Magazine issued as a regular section of The Sunday Edition of THE WORLD. This new Magazine printed in the beautiful colorgravure process (exclusive in New York) strikes an entirely new note in newspaper supplements, not only because the printing process is brand new, but because of the stories and articles printed within its covers. Notable fiction, with all the drama, all the adventure, all the romance that knowing readers expect in the country's greatest periodicals, will appear each week. It will be worth your while to tell your newsdealer to save a copy of next Sunday's World for you.

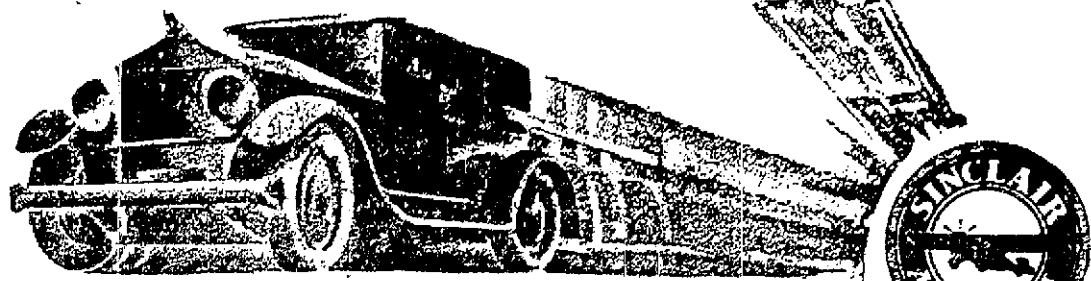

CLUBS TO MEET
Two clubs of the International Institute for Foreign Women on Pennsylvania avenue will hold their regular meetings this week. This evening at the institute home the Merry Circle Club will hold their meeting. The Girl Reserves will meet Wednesday evening.

Miss W. J. N. Sroczynska is the supervisor of the Merry Circle Club, while Miss Antoinette Barbandi is head of the Girl Reserves.

Wife Was Fat No Longer Attractive Lost Husband's Love

The above headlines appeared in a New York newspaper of April 4 in connection with a divorce trial that has attracted wide attention. "She was a beautiful woman," one witness testified, "but she got fat and is not attractive any more."
Thousands of women are getting fat and losing their beauty just because they do not know what to do. If you are fat how would you like to lose it and at the same time gain in physical charm and acquire a clean, clear skin and eyes that sparkle with buoyant health?
And gain in energy and activity? Why not do what thousands of women have done to get rid of pounds of unwanted fat? Take one half a teaspoon of Kruschen Salts in a glass of water every morning before breakfast and keep it up for 30 days. Then weigh yourself and see how many pounds you have lost.
You'll have the surprise of your life and best of all a bottle of Kruschen Salts that will last you for 30 days only costs 35 cents—you'll probably say it's worth one hundred dollars after you take the first bottle.
Kruschen Salts are a blend of a natural reconstituting salts your body, nerves and glands must have if you are to enjoy good health. Ask Edward's of New Castle, Inc., or any druggist for a bottle of Kruschen Salts and start to lose fat today.

This winter ...your CAR CAN HAVE THIS AIRCRAFT GASOLINE

Starts COLD ENGINES fast

THIS winter, automobile engines will be just as cold as they were last winter—but no longer need they be stubborn in starting—no longer need they strain starters, drain batteries and pain nerves—no longer need they sputter and stutter when the North Wind grips your engine.

This winter, Sinclair Aircraft Gasoline has come to the aid of winter driving to make your winter motoring a real pleasure! Try the remarkable Aircraft Gasoline that starts cold engines fast . . . that greatly reduces the use of the choke . . . that eliminates engine balk, and eliminates gas locks, preventing jerky operation. It decreases the dilution of the motor oil in your crankcase. It meets the specifications of the Federal Specifications Board for Aviation Gasoline, domestic grade.

You can fill up with Sinclair Aircraft Gasoline wherever you see the Sinclair Pump with the Aircraft Globe. Try it today and really enjoy winter driving.

When the Weary Firemen Have Put Out the Last Spark

When the grim fight is finally won and the tired firemen have turned off the water and gathered up their hose—in that dark hour when you sadly survey your ashes and ruins—then you become vitally concerned about the actual protection your insurance provides.
With a CENTRAL Policy, you know the insurance quality is there, that the company is absolutely sound, that it adjusts claims fairly and pays losses promptly, and that CENTRAL's annual dividend (30% for the last eight years) represents that much actual saving in insurance cost. The wise buyer, considering quality first and then cost, will specify a CENTRAL Policy.

New York Man To Ride In Cab With Leonard

Local Engineer To Have Passenger On "Run" This Evening

Carroll B. Dotson, one of the most interesting visitors to the plant of The New Castle News, inspected the building today. Mr. Dotson, now the vice president and general manager of the Newspaper Institute of America, is a former editorial writer and feature writer of the New York Herald and New York Globe. Some years ago, in conjunction with other New York newspaper men, he founded the institute for the purpose of training men and women for the profession.

His visit to New Castle is for the purpose of renewing an old friendship with M. O. Leonard of 708 Blaine street, an engineer on the Pennsylvania railroad. This evening Mr. Dotson will go to Niles, O., and ride to Pitsburg, Pa., as a guest of Mr. Leonard's on his freight engine.

Out of the experiences of his ride Mr. Dotson expects to write a feature article for some of the press syndicates of the United States.

FOX WARNS OF FIRES IN WOODS

Many Dangers Again Recalled As Hunters Soon Take To The Woods

A request urging care in regard to fires on the part of those who visit the woods these days was made this morning by Owen Penfield Fox, local state forest fire warden.

Fox reminded that this is fire prevention week and while the danger of carelessness needs be impressed more on the minds of those in the city, nevertheless there is a danger in forest fires which commands the attention of every lover of the outdoors. At this time of the year he said fires can start more easily and are harder to extinguish. Considerable damage can be done.

"The hunting season is not far off," he continued, "and when it opens every hunter that enters the woods must co-operate with the state in its attempt to lower the number of fires. Not only do fires destroy trees, but spoil the water supply in the streams, and when one does everything he can to prevent fires his act has a two-fold result."

Marriage License Business Is Slack

There seems to be a slump in the marriage license business at the court house. Inspection of the docket this morning showed that no licenses have been issued since October 5. It is very unusual that a day passes when no licenses are issued, and attaches at the prothonotary's office are at a loss to account for the let up in this important branch of the business.

WOMAN IS TAKEN TO ALLEGHENY WORKHOUSE

Fifty Out Of 62 Inmates Of County Home Are Men

Mrs. Yost Is Ready For Hunting Season

Sixty-eight beds are now occupied at the Lawrence County Home. However, the number of inmates will probably be increased this winter, according to Mrs. Perry Snyder, wife of the superintendent of the home.

Many persons without funds, manage to do little odd jobs in the summer months but return to the home for the winter.

50 to 60 Are Men

Twelve persons living at the home at the present time are women and children. The rest are men. The capacity of the building is 120 persons. However, at one time, that many have never been inmates of the home.

The building is well arranged. The entire left wing is for the use of men. There are sitting rooms and balcony walks aside from the many bedrooms. The right wing is reserved for women.

Ten inmates are confined to the hospital section of the home, at the present time. The hospital rooms are nicely arranged, having private baths and sunny rooms. Men patients are cared for by an inmate of the home; women patients by Mrs. Snyder, assisted by women inmates.

Raise Farm Produce

Over 1000 heads of cabbage and from 300 to 400 bushels of potatoes

were grown on the 24 acre farm. These are put in the storage rooms. Where many jars of canned food, Mrs. Yost, of 231 East Washington, canned by the women inmates, are kept. About 60 loaves of bread are used daily, according to Mrs. Snyder. Fifty chickens are also kept on the farm.

Church services are held each Sunday and prayer services are held once every two weeks. Ministers from New Castle and vicinity volunteer to conduct the services. They usually bring special singers. The church services are well attended.

For the Safety of Your Home

Sixty-five per cent of all fires occur in the home. More than 7,000 lives are lost by fire in American homes each year.

To safeguard the home and family, as well as the community, the Stock Fire Insurance companies have provided numerous measures of prevention and protection, through the National Board of Fire Underwriters and other organizations.

Such measures involve the use of proper building materials, better building practices, the testing of home utilities, lighting and heating devices, fire extinguishing apparatus, and other services.

Department of Building Construction

The National Board Committee on Construction of Buildings assembles the best available information on reliable building materials and construction methods.

Few indeed are the municipal building codes that have not used in whole or in part the information and services of this department.

The Fire Defenses of Our Cities

For the improvement of community fire defenses, the engineers of another department of the National Board—Fire Prevention and Engineering Standards—have studied and surveyed more than 400 American cities, many of them several times. Their work is supplemented in smaller cities by engineers of other organizations maintained by the Stock companies.

The improvements in water supplies, fire alarm systems, building codes, fire departments and methods of fire fighting, made upon the recommendation of these engineers, constitute a principal factor in strengthening the fire protection and fire fighting facilities of our cities.

Public use of these advisory services, which are available without charge, for the conservation of life and property from destruction by fire, has contributed to the constant decline of the average fire insurance rate in this country for more than 20 years.

An interesting booklet called "Safeguarding the Home Against Fire" will be sent free upon request.

HOW LONG DO I HAVE TO REPAY MY LOAN?

Upon borrowing money, this thought always enters into the transaction: When do I pay it back, how do I pay it back, do I pay it all back at one time?

The Mahoning Plan answer is, you do not pay it all back at one time, you pay it back in small monthly payments. Said monthly payments are governed by the amount of your loan.

A \$50 loan you repay at the rate of \$17.50 per month for three months. Total cost of loan \$25.50.

A \$300 loan you repay at the rate of \$27.50 per month for one year. Total cost of loan, \$330.00.

There are no extras or charges connected with our loans, WHY PAY MORE? If you repay your loan in full before the schedule time, a discount is allowed.

Savannah, Where Pulaski Fell In Battle To Observe Anniversary With Program

SAVANNAH, Ga., Oct. 8.—Savannah has about completed its plans for the observance on October 9 of the sesquicentennial of the death of Count Casimir Pulaski, the heroic Pole who fell at the siege of Savannah 150 years ago. The program is to begin with a military mass celebration in the Park Extension, a large open field in the center of the city. This is to be in the morning. The assembly will then move to Moultrie Square on Bull street, where a wreath will be placed on the monument to Pulaski and there will be brief addresses. The military commands will then move to Madison Square, where there is a monument to Sergeant William Jasper, also a victim of the British assault on Savannah. Here will be unveiled a memorial tablet to the French and American troops who de-

fended the city. There will then be luncheon and in the afternoon a trip will be made to see to cast a wreath into the waters where Count Pulaski was buried.

The same afternoon there will be unveiled a tablet to the memory of Captain Denis Cotineau, a French officer, who is buried here. Captain Cotineau fought with John Paul Jones. In the evening a dinner will be served. There will be some distinguished visitors for this occasion, including the Polish Minister and the French Ambassador from Washington. The Governor of Georgia, the Governor of South Carolina and other notable persons are expected as delegation from Poland which will come to Savannah to honor Pulaski and which will stop in Washington to lay a wreath upon the tomb of the Unknown Soldier.

The Way OF THE World

By GROVE PATTERSON

LOOK AT THE ALBUM

Take the old family album out from under the shells and peacock feathers on the what-not and have a look at the boys and girls of the nineties—especially the young men and women of the hammock age. If you have been critical of the manner in which young folks dress today you will perhaps revise your opinion after you have waded through the album. Probably "Dusty" Miller, editor and humorist, said a lot and voiced the general opinion of mankind when he said: "As for me, women never dressed so nearly to suit me in the history of the world as they do today."

SOME REAL BUSINESS

It is hard to catch up on flying statistics. Aviation has passed the sport stage. It has passed the spectacular and much of the experimental stage. It has settled down to the routine of a big business. For example, more than 60 airplanes clear the Cleveland port daily, carrying an average of 80 passengers and 5,500 pounds of mail.

HARD-BOILED BIOGRAPHY

It is not easy to write good biography. It is even much less easy to write good biography when the subject is alive. And if the subject is a prominent and powerful figure the difficulty is increased. Sir George Arthur has just written "The Life of King George V." It is too early to write the life of the king of England. It is too early to write the life of any man of large affairs while he is still living. No good biographer is hard-boiled enough to do that—and the writers who are sufficiently hard are not usually good ones.

IDLE TALK

Almost anybody who brings you gossip, scandal, an idle tale, will carry one away as cheerfully as he brings it. People who tell you things "in confidence" that are better left unsaid will be sure to tell others "in confidence" what you have said. Tale bearing works both ways. Gossip and gossips come and go.

Planes Ready For Hop To New York

Heavy Fog Forces Some Of Planes Down At Albany, N. Y.

By HOMER H. METZ, International News Service Aviation Editor

ALBANY, N. Y., Oct. 8.—While the various planes entered in the 1929 National Air Reliability Tour were posted in Springfield, Mass., prepared to hop off for New York today. The occupants of two other four planes were resting, much against their will, in Albany.

Because of a heavy fog over the mountainous regions of New England, a Ford tri-motor ship, carrying newspapermen, including the International News Service correspondent and another plane owned and operated by the Wright Motor Corporation, were forced to come to earth at the local airport last night.

The press ship hopped from Montreal with the rest of the procession early yesterday, but encountered such bad weather over Vermont that it was forced to return to the Canadian City. Later in the day it hopped off again with Springfield, Mass., as its destination.

The Wright plane, which also landed here, was delayed at Montreal by the necessity of servicing another four plane and hoped off a few minutes in advance of the press ship.

Sometime today, both planes will try to fly to Roosevelt Field, N. H., where the four planes are scheduled to stop for luncheon.

WOMAN 93 TAKES AIRPLANE RIDE

FRANKLIN, Pa., Oct. 8.—Mrs. Sarah Jordan van Zandt, who was 92 last July, went flying from Franklin's new airport Bleakley field, and enjoyed the thrill. Never having seen an airplane close up and recalling the days when ox teams cleared the track on which the airport is now located, the experience proved an unusual one. "I never knew my home could look so small," she declared as she peered through the window of the cabin plane and viewed the air field below and her cottage nearby. She was up 20 minutes. "It was splendid; I hope to go again," she said.

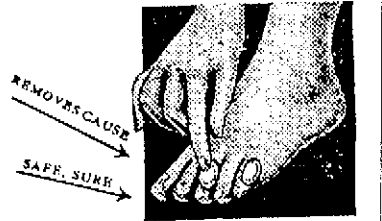

Use Planes To Curb Mosquito Breeding

(International News Service) INDIANAPOLIS, Oct. 8.—How mosquito larvae are bombed in their breeding places by swooping airplanes will be shown by the United States Public Health Service and the Universal Cinema Company of Indianapolis, producers of public health films.

The new film will introduce revolutionary methods for mosquito extermination recently developed by the U. S. Public Health Service. The film is to be used in inaugurating a world-wide campaign for malaria by applying recent scientific discoveries. The film will be distributed largely through state and county health departments in the malarial regions of the United States and through governmental health departments of malaria infested countries throughout the world.

Experiments have indicated that the time and expense involved in treating mosquito breeding areas by the new methods can be reduced to a small fraction of the former expenditure.

Beggars Said To Get \$125,000 Daily In New York City

Variety Of Tricks Used To
Milk Public Of Huge
Sum By 6,000 Men-
dicants

MANY AVERAGE AS HIGH
AS \$40 A WORKING DAY

NEW YORK, Oct. 8.—Professional beggars levy a tribute of more than \$125,000 daily on New Yorkers, and visitors, John D. Godfrey, medical officer of the Brooklyn Bureau of Charities, told the members of the Delta Upsilon club at a recent luncheon.

Mr. Godfrey said that 6,000 to 7,000 beggars were milking kind-hearted passers-by through a variety of tricks, ranging from the absurd to the ingenious. All of these beggars—"leg-
less," "fit-throaters," "crust-throaters," "charity agents"—could be helped to useful means of livelihoods by the welfare agencies of the city, he declared.

The most profitable "shake-down spots," according to Mr. Godfrey, are the subways, especially in Manhattan. A beggar "working" a crowded corner has been known to collect as much as \$20 in a single hour. Another collected \$250 in the two weeks preceding last Christmas. Such profits are exceptional, he said, but collections of \$30 to \$40 a day are not considered unusual.

The beggars operating in the side-streets show the poorest results. Some of them make as little as \$4 a day and \$10 on Saturdays, when the full pay envelopes and the holiday spirit conspire with natural kindness in favor of the professionals.

Mr. Godfrey, citing instances of ruses employed by the beggars, told of the "crust-throater" who, after surreptitiously letting drop an old crust of bread on the ground, is seen to pick

it up with the eagerness of starvation. "Sylvester the Englishman" has a way of "throwing his" in crowded thoroughfares, Mr. Godfrey explained. He places a steel plate in his cap to protect his head and a piece of soap in the mouth to help stimulate foam. After a "fit" Sylvester informs the crowd that he can not get a job on account of his illness. A "fit" may bring in as much as \$10 and Sylvester "performs" six or seven times a day.

Due to the efforts of the Brooklyn bureau and the borough police, the number of beggars there has been reduced to about 200. Mr. Godfrey said. He counseled closer survey and control of conditions in Manhattan and a more careful investigation of applicants for "pencil and shoe-string" peddlers. Efforts to help beggars establish themselves in other occupations are rarely successful, the officer declared, as professionals soon return to their favorite game.

Other members of this committee are John G. Buchanan of Allegheny county, chairman; Judge James S. Beacom of Westmoreland county; Judge George A. Baldwin of Beaver county; Walter C. Montgomery of Greene county; Richard G. Miller of Washington county; H. A. Hellman of Armstrong county; W. Russell Carr of Fayette county; and John H. Jackson of Butler county.

The appointment of this committee is in pursuance of action taken by the Pennsylvania Bar Association at its last meeting at Bedford Springs, authorizing and directing each Vice-President to appoint such committee for his zone.

It is the hope of the State Bar Association that these committees will make contact with each practicing attorney in Pennsylvania and thereby assist the lawyers of the state in raising, from year to year, ethical standards in the practice of the law.

Parking Problem At High School

To Attempt To Provide Parking
Space At School For
Students

On Friday morning at the senior high school automobile questionnaire blanks will be filled out by students driving to and from school. The purpose of this is to find out how much parking space is needed for automobiles belonging to members of the high school who drive to school daily. Complaints have been received that cars are parked in front of houses near the school where the property owner parks his car. And for this reason the blanks will be filled and an attempt will be made to have the empty grounds of the school which are not in condition for the parking purpose at the present rounded into shape and have the students park their cars in the school grounds. Daily close to 200 cars are parked around the high school.

In the blanks the student will be required to state the number of their car, their license plate number, the make of the car and other facts pertaining to automobiles.

INSECTS ENDANGER OLD MISSION IN CALIFORNIA

(International News Service)
SAN LUIS OBISPO, Oct. 8.—At-
tacked by termites, old Mission San Miguel is in danger of collapsing, it was reported by Franciscan fathers.

Ancient hand-hewn beams, eaten by the ants, make the old structure unsafe and funds are being raised for its restoration.

The building has the finest mural decorations of any of California's missions.

General Motors Dealers have adopted this Standard Price Tag

THERE is a difference between the list (f.o.b.) price of a new automobile and its delivered price—the price you actually pay. This difference consists of certain additions made by the dealer.

In line with General Motors' policy of giving the public all the facts, its dealers show you exactly what their additions are. They are using the standard price tag illustrated here. It is attached to the steering wheels of new cars displayed in their showrooms.

Everything is set forth frankly. Every charge is fair and reasonable. Nothing is hidden. There is no extra charge to permit a seemingly better trade-in offer. No extra charge to cover advertising, etc. You are entitled to buy a General Motors car with full knowledge of just what makes up the difference between the list price and the delivered price.

Study this tag. Use it as your guide in comparing automobile values. Look beyond the list price. Find out just exactly what goes into the delivered price of a new car—for that is the price you pay.

Consider the delivered price as well as the list (f.o.b.) price when comparing automobile values. General Motors dealers' delivered prices include only authorized charges for freight and delivery, and the charge for any additional accessories that may be desired.

(NAME OF CAR)	(COLOR)
(MODEL NO.)	(BODY STYLE)
LIST PRICE (F.O.B.)	\$
FREIGHT AND DELIVERY	\$
DELIVERED PRICE	\$
ACCESSORIES (Not included in the List Price)	\$
TOTAL DELIVERED PRICE	\$

These prices are for cash. Purchase may be financed on convenient monthly payments if desired.

THIS is the standard price tag used by General Motors dealers to show what makes up the delivered prices of their new cars.

List Price. The f.o.b. price advertised by the factory.

Freight and Delivery. An author-

ized amount to cover the freight charges paid by the dealer and the cost of unloading, inspecting, supplying fuel and oil—preparing the car for delivery to you.

Accessories. A charge for any additional accessories that may be purchased.

John D. Williams Stirs Lodge Members

Follansbee Visitor Speaks At Star
Of Wales; Other Welsh
News Notes

By WM. A. JOHNS
Brython

Attendance at the meeting of the Star of Wales lodge, Saturday evening, October 5, was record breaking. John D. Williams, of Follansbee, W. Va., who is a charter member of the lodge, a former resident of the fifth ward and an ex-boss of the Shenango Tin Plate works, was an out of town member at the meeting.

After the business meeting was over, the president, Griffith Phillips, called upon Brother Williams to make a speech. Mr. Phillips gave a wonderful talk. He took the members back to the time when the Star of Wales lodge was organized, over thirty-two years ago. He related the experience they had in securing a place to hold the meetings. At least, they were fortunate, through the kindness of Isaac Hughes, to secure the Hughes hall, on Mill street, where the lodge meetings were held very successfully for many years.

Mr. Phillips spoke of the admirable qualities of the late Daniel J. Davies, the father of Councilman D. O. Davies. Thomas Edwards, of Pico, California, and John Harvard, of New Castle, Mr. Hughes stated that he was very glad that the lodge was more prosperous and more successful than ever before. He also said he was proud of the good class of people who were filling the different offices of the lodge.

Speeches were also given by William J. Davies, Griffith Thomas, Evan Hopkins, Llewellyn Thomas, Thomas D. Thomas, Daniel Hughes, Daniel Williams, John Harvard, Isaac Isaacs, Ben J. Fowler, Joseph Pugh,

David Harris, William A. Johns, Thomas Lacy and Griffith Phillips.

WELSH NEWS NOTES

John D. Williams attended the Congregational church, Sunday, to enjoy the preaching of the new preacher, Rev. Rhys T. Williams, who gave two interesting sermons.

Many New Castle people went to the singing festival at Niles, Sunday. The chairman for the afternoon session was Rev. Joseph H. Lloyd, of Youngstown and the evening service was in charge of Attorney Edward Blythin, of Cleveland, O. Music was conducted by Prof. Herbert Davies, of Youngstown. Miss Nancy Jenkins, of Cleveland was a soloist.

Thomas Williams, son of Mr. and Mrs. Edwin Williams, of Hillcrest avenue, has returned to Cincinnati, O., where he has a good position, after visiting his parents for sometime. Thomas Charles, formerly of Lut-

ton street, but now of the east side, has recovered from a recent illness and was able to attend the service at the Emmanuel Baptist church, Sunday morning, where he is a member.

Glen Hogue, member of the Harmony Baptist church, worshiped at the Emmanuel Baptist church, Sunday morning. Rev. Childs, pastor of the church, and he are great friends. Rev. Clifford S. Joshua is out of danger at the present time and he will be able to occupy his pulpit on Sunday, October 13.

A letter was received from a Welshman by the name of Thomas J. Evans, of Oil City, Pa., telling that he is arranging to visit New Castle, in the near future, for the pleasure of hearing a Welsh sermon once more, for the first time in 25 years.

Issues Reminder To Sheep Raisers

Agent Suggests Care Be Used In
Handling Of Sheep This
Fall

As a timely reminder to Lawrence county flockmasters, County Farm Agent H. R. McCulloch today urged that breeding ewes be drenched for stomach worms at least twice before the sheep are placed in winter quarters.

Some shelled corn and oats fed now to the breeding stock will pay dividends to the average flock owner. For finishing market lambs Agent McCulloch recommends feeding a mixture of eight parts of shelled corn and one part of pea cake.

Another note of timely interest sounded by Mr. McCulloch for the benefit of the sheep men is that half of the flock next year will carry the blood lines of the sire used this fall. "Be sure that the ram is of the right kind," he cautions.

High Students To Hear About China

The first lecture of the school year for the senior high school will be one on "China" by the noted Dr. Alfred C. T. Li, who received his doctor degree in the University of New York. He will deliver his lecture on Monday morning, Oct. 21, in the auditorium of the high school.

This is expected to be a very interesting lecture. Dr. Li is making a tour of the high schools and clubs of the United States and through this the high school is fortunate in getting the speaker from China here.

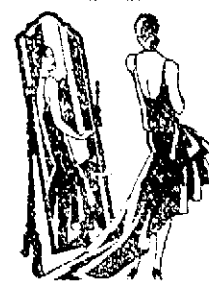

Says Crossing Legs Brings On Palsy

ROCHESTER, Minn., Oct. 8.—Be-
ware that habit of crossing your legs! It might be the cause of palsy, according to Dr. Henry W. Woltman of the Mayo Clinic here.

Pressure on the peroneal nerve, situated at the bend of the knee, will cause temporary paralysis, and hinder the leg movement, he says. This will produce palsy in some cases.

This condition is more often produced by leg-crossing in leisurely middle-aged persons, he says, because of their frequent habit of crossing the legs.

The right way to redye Finest Silks

TEXTILE manufacturers always use special dyes for silk or wool. They know that is the only way to secure the most perfect results. The makers of Diamond Dyes are the first to enable home users to follow this plan.

Next time you want to dye some of your more valuable articles of pure silk or wool, try the special Diamond Dyes in the blue package. They will give these materials clearer, more brilliant colors, with greater depth and permanence than any "all purpose" dye.

These special Diamond Dyes are just as easy to use as ordinary dyes. Like the white package Diamond Dyes, they contain the highest quality anilines money can buy. That's what

makes them go on so smoothly and evenly, without spotting or streaking. That's the secret of their brilliance; their resistance to sunlight, wear, and washing.

The white package of Diamond Dyes is the highest quality dye prepared for general use. It will dye, or tint, silk, wool, cotton, linen, rayon (artificial silk), or any mixture of materials. The blue package is a special dye for silk or wool only, with it you can dye your valuable articles of pure silk or wool with results equal to the finest professional work. When you buy—remember this. The blue package dyes silk or wool only. The white package will dye every kind of goods, including silk or wool. Your dealer has both packages.

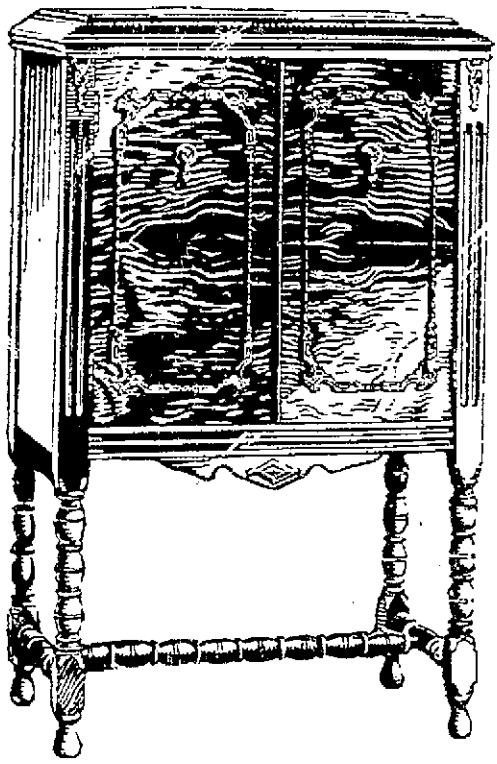

Diamond Dyes

Sun Proof
EASY TO USE—BETTER RESULTS

Diamond Dyes contain the highest quality anilines money can buy. And it is the life of that count. They are the rich dyes; the source of their rich colors; brilliance and permanence.

Premier MacDonald By His Friendly Smile Has Won Washington

British Captured Washington
In 1814 In Bloody Battle;
Easy For Mac-
Donald

Rich Friendliness Of Famous
Scotsman Has Done Much
To Cement Rela-
tions

By GEORGE R. HOLMES
International News Service Staff
Correspondent
WASHINGTON, Oct. 8.—A distinguished diplomat, who has observed the ebb and flow of world politics in many quarters of the globe said today:

"The British captured Washington in 1814 after long and bloody fighting; it has remained for a pacifist Prime Minister of Great Britain to do it one hundred and fifteen years later without the firing of a single shot."

Behind this somewhat waggish observation lay a sincere and eloquent tribute to J. Ramsay MacDonald, the square-built, self-made Scotsman, whose ruling passion is world peace; whose dream is a partnership of the English-speaking peoples to maintain it, and who, in the brief space of four days intimate contact with American officials, has probably done more to accomplish it than any gold-branded diplomat in history.

Friendly Equality

Without the services of experts or the trappings of formal diplomatic intercourse, without much of anything, in fact, save an earnest, almost evangelical, profession of friendly equality, the British Premier undoubtedly has accomplished things in Washington the full significance of which may not be fully realized for years. At the very lowest estimate he has brushed away international cobwebs that no amount of ordinary diplomatic intercourse could have done.

And as a result, Great Britain and the United States go into the forthcoming naval conference in January on a basis of friendly equality and earnest cooperation toward the goal of reducing armaments throughout the world. It is a long way from the ill-starred Geneva naval conference two years ago when British-American differences broke up the conference and drove a cleft between London and Washington that has remained unbridged to this day.

Spoke To Senate

The crowning touch of MacDonald's pilgrimage to Washington was when he sat on a log with President Hoover in the fastness of the Virginia mountains and discussed his cherished dream of a partnership between the English-speaking peoples to maintain peace throughout the world—important as that event was.

The climax was reached when a British Prime Minister for the first time in history faced the American Senate in session, this senate that jealously protects its prerogatives in international affairs, the senate that broke the heart of Woodrow Wilson, and exclaimed:

"Parity? Take it—without reserve, heaped up and flowing over."

From any other British statesman perhaps, certainly from a Lord Balfour or a Stanley Baldwin, such a profession undoubtedly would have been taken with a grain of salt, or been interpreted as a pretty and meaningless gesture.

Stirring Spectacle

But behind the British Prime Minister who stood on the rostrum there, most senators discerned also the first laborer ever to reach the pinnacle of the Premiership, a man sprung from low estate, and a man whose aversion to war and militarism in 1914-

1918 almost made him a pariah in his own country, his name hissed, and his company avoided. Whatever it was, the senate unquestionably took his professions at their face value, and the chancellors rattled with applause.

It was a stirring and never-to-be-forgotten spectacle—this appearance of a British Prime Minister before the senate, fresh from conference with the President of the United States, in which they between them resolved the contentious points that had stood in the way of the actual calling of another disarmament conference.

Man Who Bit Off Ear Of Another Records His Act

Unusual Entry Found In Deed Of
Butler County In Recorder's Office

BUTLER, Pa., Oct. 8.—Even the "good old days" to which one often hears another refer when discussing the pre-Voostedean era, or the modes and habits of the younger set of today, as compared with those of their forefathers, seemed to have their objectionable features, if a record in the old files at the register and recorder's office in the Butler county courthouse can be taken as a criterion. The record refers to a time about a century ago when persons guilty of certain offenses were deprived of one of their ears.

Joseph Pisor, who had the incident recorded, doubtless did so at the instance of his victim, who, deprived of an ear in a combat, evidently did not want the world to believe he had lost the member as a penalty for any criminal offense. At any rate, that is the interpretation placed upon the record by members of the local bar.

The entry is to be found on page 290 of deed book J, and reads as follows:

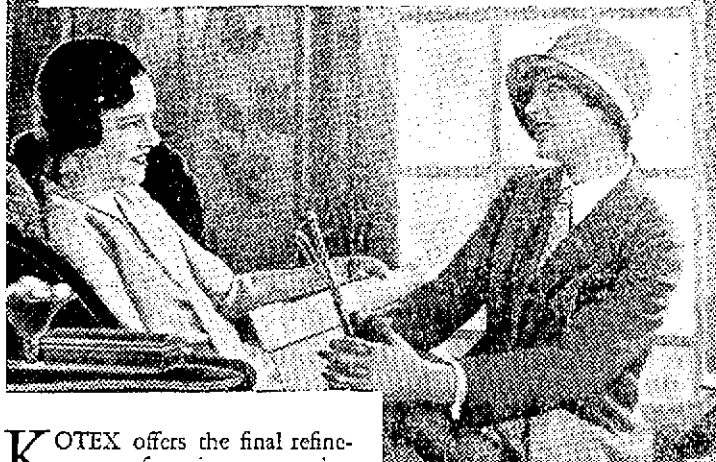

"Recorded September 30, 1835.—Know all men by these presents, that J. Joseph Pisor, of the twenty-ninth day of July, in the year of our Lord one thousand, eight hundred and thirty-five, at the township of Mud-dycreek, in the county of Butler, did in combat with one William Ralston, bite off the said Ralston's left ear, and that it is my desire that the same be recorded. Witness my hand and seal, the twenty-ninth day of September, A. D. 1835.—Joseph Pisor."

Whenever conversation around the courthouse drifts to curious records, someone is almost certain to refer to the deed book J, which has become about the most read book in the register and recorder's vault.

So important to
daintiness
this deodorizing sanitary protection

KOTEX offers the final refinement of sanitary protection... complete deodorization. What a relief this is, from old fears and worries!

You can depend on Kotex to save you from any possibility of offense in this way, just as you depend on it to save you from many other embarrassments.

Kotex is rounded and tapered... designed to avoid all conspicuous bulk. Wear Kotex confidently with sheer or close-draped gowns.

Preferred by hospitals

Kotex, too, is so wonderfully comfortable, so light and cool and dainty! Its absorbent filler, Cellucotton wadding, is selected by surgeons in 85% of the country's leading hospitals, because of its amazing power of absorption.

KOTEX IS SOFT...

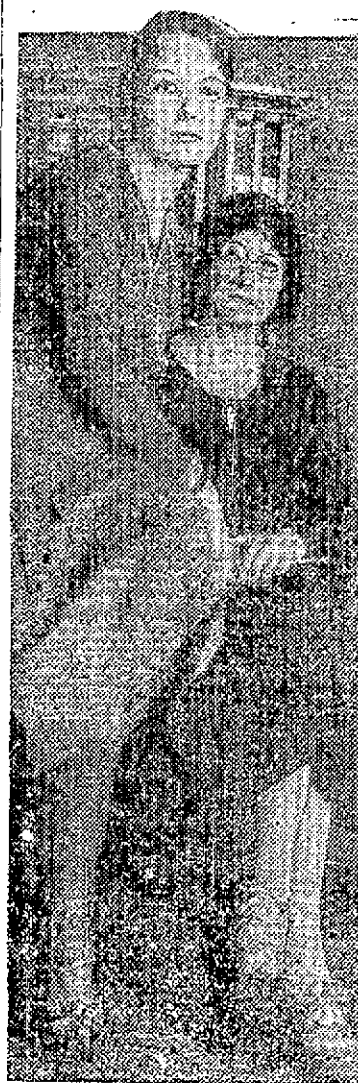

- 1—Not a deceptive softness, that soon packs into chafing hardness. But a delicate, lasting softness.
- 2—Safe, secure... keeps your mind at ease.
- 3—Kotex filler is far lighter and cooler than cotton, yet absorbs 5 times as much.
- 4—In hospitals... Kotex is the identical material used by surgeons in 85% of the country's leading hospitals.

Kotex—45¢ for 12—at any drug, dry goods or department store.

International News Service
PITTSBURGH, Oct. 8.—A cigarette that he was smoking when he fell asleep was believed by police to have caused the fire in a dwelling here today that probably fatally burned Thomas Quinn, 30. The cigarette set fire to the couch on which Quinn was lying.

Firemen carried Mrs. Joseph O'Connor, Pauline McKarry, 19, and her sisters, Patricia, 15, and Audrey, three, and her brother John, 13, to safety.

At St. Francis' hospital attaches said Quinn's condition was grave.

May Solve One Of Big Problems

International News Service
WILKINSBURG, Pa., Oct. 8.—The invention of Simon Yeager, local inventor, may solve the question of what to do with the heat wasted at present in gasoline motors.

Yeager has developed a steam turbine of his own design which he claims operates from steam generated

by the utilization of the heat in the exhaust of an ordinary four-cylinder automobile motor.

Yeager has provided an atomized warm water spray for the exhaust to provide the steam. The steam then passes over a hot copper sheeting surface for superheating and then into the steam turbine. The steam generator is no larger than an ordinary muffler, Yeager says. He plans to continue the experimentation to demonstrate the practicability of substituting them for the gasoline motor now used in automobiles.

Pittsburgh Visitor Praises Ellwood's Low Fire Record

Civic Clubs Gather In Meet-
ing To Hear James Dodges
Of Pittsburgh Open
Fire Week

Clever Mock Trial Presented
By Local People One
Reason For Success
Of Meeting

ELLWOOD CITY, Oct. 8.—Over one hundred men gathered at the combined meeting of the Chamber of Commerce, Rotary and Kiwanis club which took place in the dining room of the Trinity Lutheran church Monday evening in observance of Fire Prevention week.

James Dodges, authority on fire prevention, from Pittsburgh, praised Ellwood City for the low number of fires noted here. The number this year is but little higher than last. Mr. Dodges stressed the importance of fire prevention, and stated that most fires were caused by carelessness. He asked how many people had their flues and furnaces inspected in the fall before lighting the fires, and watched their electric light wires. His talk sponsored a permanent fire prevention committee composed of members from the Chamber of Commerce, Rotary and Kiwanis men, who would confer with Chief Plante, and in case an ordinance was needed to further the work of the fire department, this committee would try to get such an ordinance put through the borough council. He also stated that an important factor would be to have an ordinance passed permitting Chief Plante to inspect the homes of this city as well as the business houses. Mr. Dodges stated that Ellwood has a fine fire department and apparatus.

A fun feature of the meeting was the Mock Trial perpetrated by Maurice Krause, as judge; Randal Luke as attorney for the defense and J. W. Humphrey, prosecuting attorney. One had opportunity to see these judicial lights act without any responsibility being involved, and the result was side-splitting. The affair was a semi-serious, with various people representing a can of gasoline, matches etc.

Thanksgiving Rites In Immanuel Reformed Church

Rev. W. E. Minter To Preach
Union Sermon Thanks-
giving Morning

ELLWOOD CITY, Oct. 8.—At the regular monthly meeting of the Ministerial Association which took place Monday morning in the Presbyterian church, it was decided to have the union Thanksgiving service in the Immanuel Reformed church this year, at 9 o'clock Thanksgiving morning. The sermon will be preached by Rev. W. E. Minter of the U. P. church. At the next meeting of the association Rev. L. J. Baker will read a paper.

HOSPITAL NOTES
ELLWOOD CITY, Oct. 8.—Admitted: Minor Thomas of this city and Carl Murphy of Pech street.

J. H. Newton, of Wurttemberg, is confined to his home by illness.

Wears Cotton Frock

Miss Frances Bowden

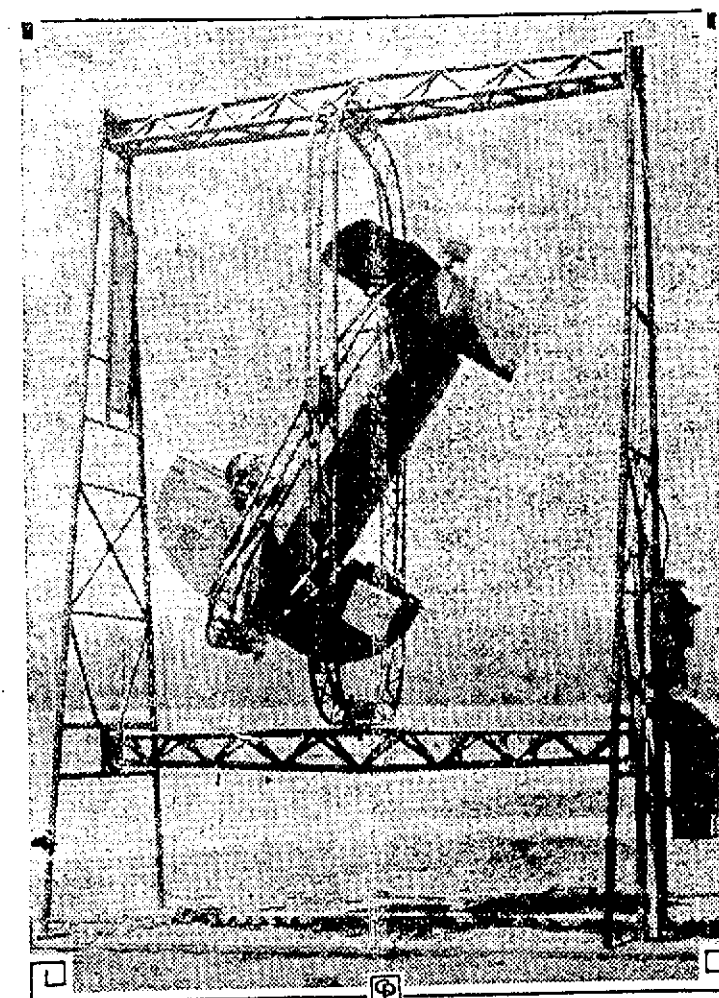

True to her beloved south and its productions, Miss Frances Bowden, of Memphis, Tenn., had her party dress made of cotton when she was a winner in the cotton dress parade at the Mid-South Fair and Southern Dairy show at Memphis recently. "It's better than silk," she declares.

School Students To Contribute Fire Essays Here

ELLWOOD CITY, Oct. 8.—An essay contest on fire prevention is part of the fire prevention week's plan of activities here. The contest is being held the 6th, 7th and 8th in the local schools. Today is the last day for submitting essays. The best essay in each class will receive \$2.50 in gold, and all essays must be in the hands of the fire prevention committee not later than Friday of this week. J. J. McLaughlin heads the committee. Posters emphasizing the value of fire prevention have been placed in all the schools, and during the week fire drills and inspection of schools will be a feature. On Thursday and Friday short talks will be given on fire prevention by prominent local business men.

BIRTHDAY PARTY.
ELLWOOD CITY, Pa., Oct. 8.—Mrs. Earl McDaniell, of Knox, was hostess to a number of children at her home Saturday afternoon in honor of the fifth birthday anniversary of her daughter, Ruth. Games were enjoyed on the lawn by the young guests followed by the serving of refreshments by the hostess. The young honor guest received a number of gifts.

MECHANICAL TEACHER FOR FLYING

MECHANICAL FLIGHT TUTOR

Training "green" flyers on the ground for their subsequent flights through the air has been increased in efficiency recently, by the addition of a successful flight tutor to the facilities of the army air corps. This device is a "glorified orientator," which is equipped to execute all the maneuvers that a regulation airplane can perform. It consists of a small fuselage, with rudder, elevator and aileron control surfaces which are operated by means of standard plane controls installed in the body. The training plane is mounted on a double-tripod frame 20 feet high. Thus aviation recruits can be familiarized with the "feel" of a ship under given conditions without endangering lives.

Dr. B. M. Lawther Named Head Of American Legion

New Officials Installed With Im-
pressive Ceremonies Follow-
ing Election Monday
Night

ELLWOOD CITY, Oct. 8.—Dr. B. M. Lawther was elected post commander of the American Legion at the annual meeting held last night in the Legion hall. Dr. Lawther is a prominent local physician and has long been active in American Legion affairs. He is a member of the Legion Bugle and Drum corps and ever since its organization he has been one of the hardest workers in its behalf.

The other officers for the coming year which were elected last night are as follows: First vice commander, Hugh J. Holliday; second vice commander, Ed Cain; chaplain, Rev. J. R. Routledge; historian, Louis Edelman; finance officer, Loyal Wilson; sergeant-at-arms, Andrew Funk; legal aid officer, R. B. Luke; executive committee, Carl A. Pike, Ted Knauff, Paul Cartwright, Dr. Fred H. Swanson, Dr. Chas. B. Biscaglia. In addition to the five elected members of the executive committee, the post commander, the adjutant, the finance officer, and the chaplain are members ex-officio which make a total of nine on the executive committee.

The post adjutant for the coming year will be elected at the next meeting. The new nominees for this position are George Wilson and Elmer Greenham who were nominated after Ed Cain had resigned as adjutant on account of having been elected to both the office of adjutant and that of second vice commander.

Following the election, the new officers were installed with impressive ceremonies. The installation was in charge of M. J. Kane of Aliquippa, district commander of the Twenty-sixth district which includes Lawrence, Beaver, and Butler counties. Other distinguished guests at last night's meeting were: Ivor Davis, past commander of the New Castle post and now deputy commander for Lawrence county; Charles Edwards, past commander of the Rochester post and now deputy commander for Beaver county as well as chairman of the county committee; and Frank J. Yetso, past adjutant of the Aliquippa post.

In regards to Armistice day, it was voted to attend the Beaver Valley celebration at Beaver Falls after holding a short parade here in Ellwood City on that morning. In addition to the invitation from Beaver Falls, the local invitation to Butler is too great to enable the post to have adequate representation.

A standard size aviation sign, painted on a large roof for the guidance of passing aviators, has been one of the aims of J. Wilbur Randolph, post. It was announced last night that when the officials of the Ellwood Steel corporation were asked to donate the roof of their plant for this purpose, they volunteered to have the entire sign painted at their expense. When this is done there can be no more criticism of the town due to lack of proper marking.

The meeting night of the Bugle and Drum corps has been changed to Thursdays at eight o'clock. Negotiations are pending for a larger and more suitable hall to be used for

practice and it is desired that all members of the corps be present at the Legion hall at eight o'clock sharp this Thursday so that the practice may be transferred to the new hall if it is available.

Many local Legionnaires attended the National convention of the American Legion held last week in Louisville, Kentucky. Last night a number of interesting sidelights of the convention were given by the members of these groups. Among those called upon were Clem Hayes, Paul Cartwright, Dr. B. M. Lawther, Wayne Baird, and Dr. Fred H. Swanson.

Mrs. T. V. Barnes Entertains Club

ELLWOOD CITY, Oct. 8.—Mrs. T. V. Barnes of Lawrence avenue entertained the members of the Monday Evening Bridge club and a few special guests last night at her home. Special guests present were: Mrs. Thomas Wilson, Mrs. Lee Kimes and Mrs. Floyd Steckman.

Travel prizes were won by Mrs. Howard Wilson and Mrs. Lee Kimes. Three tables of bridge were in play, with score awards being won by: Mrs. Lee Kimes, Mrs. J. W. Humphrey and Mrs. George Darnbach.

The meeting closed with the serving of delectable refreshments by the hostess assisted by Mrs. E. B. Baker. In two weeks Mrs. Ray Chambers will entertain.

ALL-DAY MEETING.
ELLWOOD CITY, Oct. 8.—The Young People's Society of the Trinity Lutheran church will enjoy an all-day meeting Wednesday in the basement of the church. All women of the church are expected.

MORAVIA STOP

AMONG OUR CHURCHES

At the Harmony Baptist church Rev. W. W. Brown of New Castle had charge of the services in the morning. There were no services later in the day on account of the Young People's Conference which met at Unity church at Harlansburg. A large delegation went from Harmony and attended the afternoon and evening session.

Services were well attended Sunday at the Christian Alliance church. Prayer meeting was held Monday evening in the church. Bible study class will meet Tuesday evening in the parsonage. A birdseye view of the Bible is being given by means of charts. A question box is conducted in connection with this work. Young People's meeting Wednesday evening at 7:45. Cottage prayer meeting at the home of Mrs. David Newton on Friday evening.

CHILDREN'S PARTY

Mr. and Mrs. W. A. Stevenson entertained Saturday afternoon, September 8th at a children's party in honor of the fifth birthday of their son Raymond. Hours were from two until five and the little folks had a wonderful time playing games and disposing of a delicious lunch served by Mrs. Ed J. Johnston, and Mrs. Harry Bean of New Castle. Many nice gifts were received by the little honor guest. The guest list of twenty eight included Mildred Swope, Dorothy Miller, Goldie Miller, Eleanor Brown, Betty Brown, Irene Shoaf, Marion Young, Dorothy Young, Doris Duncan, Lucille Campbell, Gladys Miller, Edsietta Hogue, Lois Smith, Doris Wood, Alice Keegan, Robert Newton, James Newton, Robert Smith, David Keegan, Elmer Duncan, Billie Campbell, Willie Henderson, James Henderson, Neal Nelson, Gerald Brown, Robert Nelson, Dean Stevenson, Clinton Brown, Florence Brown, Raymond Stevenson.

BIRTHDAY PARTY

A party of young people from Moravia Stop motored to Koppel, and attended a birthday party in honor of the sixteenth birthday of Miss Millie McGintick. It was a very enjoyable occasion. Those who went from Moravia were Goldie Young, Lola Shaffer, Edith Shaffer, Margaret Long, Matilda Kaldy, Louise Wiley, Mr. and Mrs. Frank Young, Charles Young, Clyde Young, Jess Shaffer, Ray Pander, Everett Pander.

MORAVIA STOP NOTES

Albert Houk and Frank Houk motored to Darlington Saturday. Mr. and Mrs. Wm. Duncan and family visited the airport at Pittsburgh one day last week. Mr. and Mrs. Wm. Waters of New Castle spent Wednesday with Mr. and Mrs. James Hogue.

Mrs. Ernest Lock spent Thursday in Ellwood City.

Earl Allen of Akron, O., called at the Frank Hogue home Sunday.

Mr. and Mrs. Harry Newton have taken up their residence in the house recently occupied by Mr. and Mrs. Clarence Johnston.

Mrs. Margaret Morganthaler of Pittsburgh has arrived to spend some time with her granddaughter, Mrs. Chester Buquo.

Mr. and Mrs. Deway Williams and family left Saturday for Clearfield, Pa., where they spent the week end.

Miss Goldie Young who is employed at Newton Falls, O., spent the week end at her home here.

Mrs. Chester Buquo attended a chicken dinner at the home of Mrs. James Cravener of Hazel Dell, Wednesday evening.

Virginia Long of New Castle spent Sunday evening at the family home here.

Mr. and Mrs. Harry White and family visited Sunday with Mrs. White's sister Mrs. Vaneman of the Old Pittsburgh road.

Friends will be glad to learn that Mr. Meister seems to be slightly improved. Mr. Meister is in the New Castle hospital.

Margaret Long and Mary Long were dinner guests of Margaret and Norma Glasser Sunday.

In honor of Mr. and Mrs. Chester Buquo who leave this week to make their home in Ellwood City, a group of friends tendered a farewell party Saturday evening. Lunch was served buffet fashion and dancing to ragtime music was the amusement. Those present included Mr. and Mrs. J. Buquo and son Jay, Jr., Mr. and Mrs. Ted Knauff, Mr. and Mrs. Louis Conway, Mr. and Mrs. John Duru, Jr., Helen Munnell, Roma Munnell, Margaret Clyde, Mr. and Mrs. Clifford McDaniell, Joe Book.

Local Pastors Are Re-Installed At Pittsburgh Meeting

ELLWOOD CITY, Oct. 8.—Members of the congregation of the Methodist church express themselves as being well pleased that Rev. Robert Little, who has been attending the Pittsburgh Conference of the M. E. churches in Cincinnati, was re-assigned to the local church.

Rev. G. M. Conner was reassigned to the Koppel church.

Infant Dies At Home Monday

ELLWOOD CITY, Oct. 8.—Donald Gene Newton, 29-day-old son of Mr. and Mrs. George P. Newton of North Sewickley township, died yesterday at his parents' home after a brief illness. He is survived by one brother, George Jr., and his parents.

Funeral services will take place Wednesday afternoon at 1:30 from the home with burial in the Locust Grove cemetery.

Class To Have Hallowe'en Party

ELLWOOD CITY, Oct. 8.—Twenty-seven members of the Friendship Circle class of the M. E. church conducted a monthly meeting Monday night at the church and planned for

HIGH LIGHTS OF HISTORY

The Story Of The World War
134—The Selective Draft Act

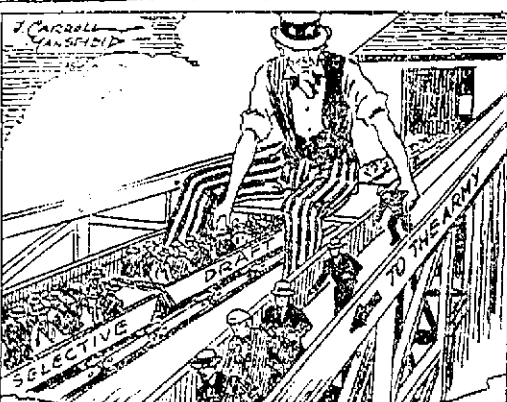

AS SOON AS AMERICA ENTERED THE WORLD WAR, MAJOR-GENERAL HUGH SCOTT, CHIEF OF STAFF, SUBMITTED TO SECRETARY OF WAR BAKER PLANS FOR A GREAT EXPANSION OF THE NATIONAL FORCES TO BE SECURED BY UNIVERSAL COMPULSORY SERVICE. BOTH THE SECRETARY AND PRESIDENT WILSON CAME TO FAVOR COMPULSORY MILITARY SERVICE.

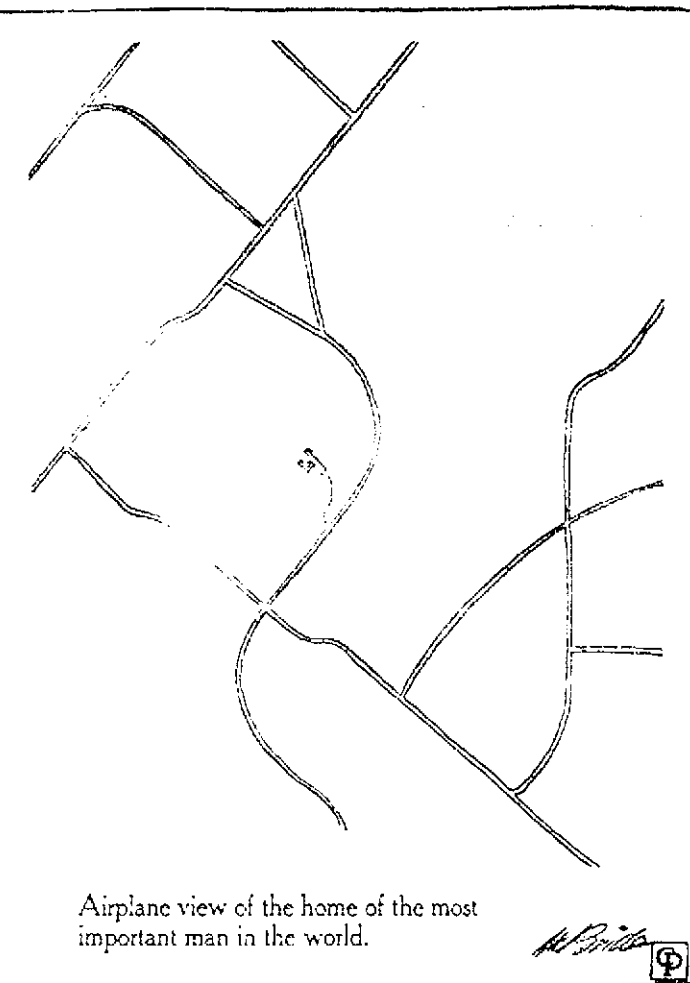

ALTHOUGH THE AMERICAN PEOPLE HAD ALWAYS BEEN OPPOSED TO THE IDEA OF CONSCRIPTION, THE PRESIDENT WAS CONFIDENT THEY WOULD SUPPORT ANY MEASURE THAT WOULD SPEED THE DAY OF VICTORY AND PEACE. HE THEREFORE USED ALL HIS INFLUENCE TO HAVE A BILL ESTABLISHING COMPULSORY SERVICE BROUGHT BEFORE CONGRESS.

MAY 18, 1917, SIX WEEKS AFTER OUR DECLARATION OF WAR, CONGRESS PASSED THE SELECTIVE DRAFT ACT. IT AUTHORIZED THE PRESIDENT TO ENROLL ALL THE MEN IN THE COUNTRY BETWEEN THE AGES OF 21 AND 31, AND FROM THIS GROUP TO RAISE BY SELECTIVE DRAFT A FORCE OF 500,000 MEN, WITH AN ADDITIONAL QUOTA OF 500,000 AT A LATER TIME.

IN A PROCLAMATION THE PRESIDENT CALLED UPON ALL MEN OF DRAFT AGE TO ENROLL ON JUNE 5, 1917, SAYING, "THE WHOLE NATION MUST BE A TEAM IN WHICH EACH MAN MUST PLAY THE PART FOR WHICH HE IS BEST FITTED. IT IS IN NO SENSE A CONSCRIPTION OF THE UNWILLING. IT IS, RATHER, A SELECTION FROM A NATION WHICH HAS VOLUNTEERED IN MASS."

Meat Packers Look For Good Business

"Good Demand For All Packing House Lines" Says Armour & Company President

"Usual Harvest Business Is In Evidence" And Shows Prosperity In All Lines

(EDITORS: Following is the seventh article by W. S. Cousins, International News Service Financial Editor on the fall business outlook. These articles are based on exclusive interviews with leaders in the financial world.)

By W. S. COUSINS, International News Service Financial Editor

NEW YORK, Oct. 8.—"We have entered the fall period and demand for all packing house lines," said F. E. Edson, president of Armour and Company, when requested today by International News Service for an authoritative survey of general conditions in the important packing and foodstuffs industry. Heavy demands for the packers' lines in the southern cotton states and the great agricultural sections of the west and middle west are now being made, and the packing industry, said Mr. Edson, will give a good account of itself in supplying these demands efficiently and economically.

"The usual harvest business is in evidence," Mr. Edson declared, "cotton pickers have a man-size job ahead of

them and the southern states are ordering man-sized meat rations."

Business Is Good.

Because of its direct reflection of the buying power of all types, grades and classes of citizens, the retail mercantile business of the country is generally accepted as one of the most accurate and reliable economic weather vane. As pointed out by President Robert E. Cowie of Railway Express agency, handling 98 per cent of the express business of the country, buying of goods from the retail stores starts the current of business activity back to the jobbers, then to the wholesalers, and finally to the producers and manufacturers. When the public buys, goods actually move and not until then.

For that reason, the comment of President H. T. Parson, president of F. W. Woolworth Company, one of the largest distributors of low-priced goods in the world is of unusual value in relieving the prospect for American business in the final quarter of the year. Briefly, Mr. Parson says Woolworth shows a 9 per cent increase in sales in the first eight months of 1929 and he has reason to look for better business in the last four months of this year than in the same period of 1928.

Wholesale Trade Ahead.

Reports and estimates presented to the federal reserve bank of New York along about 7 per cent ahead of last year. Considering the normal increase in population at 3 per cent, this still leaves a 4 per cent margin of general expansion in wholesale distribution of goods which will doubtless be reflected in retail trade channels later in the year. The Thanksgiving and Christmas shopping season, most important of the year lie directly ahead.

The largest increase in the period under review was reported by the machine tools industry, up 33.6 per cent. This is extremely important, since it reflects the expansion in industries requiring the tools. Stationery and typewriters showed an increase of 20 per cent, also a favorable commentary on business activity. In the line of luxury a 20 per cent increase in silk goods as reported by the Silk Association of America, is evidence of the more highly cultivated personal requirements of American working men—and women by whom silk wearing apparel is regarded as a necessity rather than a luxury. Grocery trade is up 7 1/2 per cent, men's clothing 5 1/2 per cent and drugs 12 per cent.

Vicks Now Passes 26 Million Yearly!

More And More Millions Follow Trend Of Modern Medicine And Treat Colds Externally

To keep pace with the ever-growing demand for Vicks VapoRub, the external treatment for colds, another increase is being made in the figure of the Vicks slogan, made famous when Vicks reached "17 Million Jars Used Yearly."

Only a short time ago, the well-known "17 Million" was raised to "21 Million." Again this figure has been outgrown, as more and more people turn to this better way of treating colds. There are now "Over 26 Million Jars Used Yearly"—a jar for every family in the United States.

A generation ago, when Vicks was originated, the idea of treating colds without "dosing" was almost unheard of. Today, the whole trend of medical practice is away from needless "dosing."

Mothers especially have appreciated this modern vaporizing ointment, because it checks colds without risk of upsetting children's delicate stomachs.

And so Vicks spread, until today it has become the family standby for colds—adults as well as children's—in more than 60 countries.

Oil-Electric Engine Built At Butler, Has Unique Features

(International News Service) BUTLER, Pa., Oct. 8.—New features marking a radical departure from the ordinary design, are incorporated in an oil-electric locomotive built for the Amos plant of the American Rolling Mills Company in this city. The huge "iron horse," designed for switching ladles of molten metal, weighs 70 tons.

Special glass is used for the windows in the cab and the window frames are of metal. The outside doors are metal-sheathed to resist heat and the paint composition used on the locomotive inside and out, is of a special heat-resisting type. The locomotive is arranged so that one man can operate it with ease as it travels from furnace to furnace carrying its intensely hot burden of molten metal. The man inside the cab is amply protected from the heat by the safety features incorporated in the design of the locomotive.

A solid injection type oil engine is connected to an electric generator to supply the current for the heavy duty traction motors 250 horsepower in capacity. Engineers claim that in addition to the safety features, the locomotive can be operated at a much lower cost than the older steam powered types.

Carnegie Tech Team Members Take Big Sizes

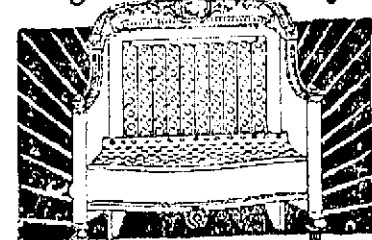

(International News Service) PITTSBURGH, Oct. 8.—The football team of Carnegie Tech claims two records for the 1929 season—the biggest hands and the biggest feet in college football.

Leonard Schnupp, husky lineman, has hands so large that his gloves have to be made to order. When he puts his hand out against opposing linemen, the opposition looks around for the other fellow.

When it came time to pass out the shoes "Bull" Karcis had to wait until a special pair could be built for his feet. No stock model came close to covering the giant fullback's "dogs."

The new super-small British car designed for the American trade will be we imagine a very handy thing for the American motorist to carry in his tool box.—Arkansas Gazette.

Plans Are Perfected For Evangelistic Services

At the regular monthly meeting of the teachers and officers of the Church School of Trinity Church last evening in the Guild Room, plans were fully perfected for the evangelistic services, October 12th to 27th under the leadership of Captain Edward Hurworth of the Church Army. He will speak at the regular session of the school on Sunday morning the 20th at 9:30 o'clock and beginning the next day, Monday, every week day afternoon at 4:30 o'clock. At this service, one-half hour in length, the Junior girls' choir will sing under the direction of Mrs. Winsor A. McNally.

On Monday at 7:45 p. m., the singing will be led by the members of the staff of the Church School, and at 8 o'clock, when the first night evangelistic service occurs, they will continue to act as the choir. Several volunteered for the day of prayer from 9 a. m. to 8 p. m., when the rector will lead a service of intercession, on Wednesday, the 16th, importing God's blessing on the first visit of the Church Army to New Castle.

Plans were further perfected for the Christmas gift box to be sent to the Sunday School of an Indian Mission at Redby, Minnesota, on the Red Lake Reservation. Miss Helen F. Lyle is taking a very active interest in this form of service leading the boys and girls to make, rather than buy, the presents.

Twenty-five dollars was appropriated from the treasury toward the repainting of the interior of the first floor of the church buildings.

Vivacious Girls Set Beauty Standards

(International News Service) NEW YORK, Oct. 8.—The search of the modern American girl for beauty has relegated orthodox standards of beauty to the background. It is not the maiden with the cameo-like profile and milk-white complexion, but she who probably combines a snub nose or freckles with vivacious physical fitness and intellectual charm who is occupying the spotlight today, figuring first in the news and attracting the most desirable of the males.

their life partners, not one of them selected a girl with a face like a pastel and a mind like a blanc mange," she observes. "Gene Tunney married the aristocratic Polly Lauder, Lindbergh selected the retiring little Anne Morrow, Young John Coolidge, the ex-president's son, picked vivacious Florence Trumbull. Delightful girls, these three. Cultured, intelligent girls. But personalities rather than traditional beauties."

Day Off For Wife As Well As Cook

(International News Service) BOSTON, Oct. 8.—A wife should be accorded just as many privileges as her hired cook, according to Mrs. Hugh C. Butler, wife of the newly appointed chief of the United States Foreign and Domestic Bureau at the Boston Custom House.

The maid, the cook, the governess and all domestic help are given one day off each week, said Mrs. Butler, so why shouldn't the head of the house also have her day off. Mrs. Butler, who practices what she preaches, spends her day off lecturing.

Mrs. Butler, who gained nationwide prominence by vigorously advocating the Shepard-Towner bill, has returned to Boston after eight years in England.

While in England, Mrs. Butler revealed she made a study of the care of children there and found that they were far ahead of the United States in that respect.

National Air Tour Officials Proceed Fliers Into Roosevelt Field

(International News Service) NEW YORK, Oct. 8.—The first three planes participating in the na-

tional air tour landed at Roosevelt field today, led by Captain Frank M. Hawks, tour referee in his Lockheed Express Cabin monoplane.

Landing with Captain Hawks were Pilots Lee Schoenhair, operating a Lockheed-Vega monoplane and Lieut. Wendall Brockley, piloting a Falcon. Arthur Schlosser, official scorer of the tour, and Ray Collins, manager of the contest, rode as passengers in the two planes.

The remaining 37 planes participating in the tour are expected to arrive at Roosevelt Field from Springfield, Mass., between 11 a. m. and noon.

Copper Industry Is Enjoying Prosperity

World Copper Production For 1929 Is Far Ahead Of Output For 1928

Corporation Heads Predict That Industry Will Continue To Enjoy Good Times

By W. S. COUSINS
International News Service Financial Editor
NEW YORK, Oct. 8.—New uses for copper metal and an enormously swollen demand for the metal in home and foreign industrial and utility projects, insures a continued broadening of the American Copper industry and increasing prosperity for the leading producers. In discussion condition in the copper industry with the heads of a few giant corporations, the writer found no traces of uncertainty or apprehension over the future.

On the other hand, copper producers are laying their plans for a considerable broadening of production facilities in the immediate future, relying upon an increasing demand for the metal in home and foreign industry. So many uses have been developed for copper since the close of the war that the industry has been revolutionized in mining and fabrication processes, in distribution and marketing, and in a dozen and one other processes connected with the production and consumption of copper.

Copper Shows Increase
World copper production in 1929 was estimated at 4,200,000,000 pounds by one prominent producer. This compares with 3,800,000,000 in 1928 and a little over 3,000,000,000 pounds

in 1927. A better idea of the growth of the industry in the last three years will be given by the following comparisons:
Monthly Prod. 1929, 360,000,000 pounds
1928, 260,000,000 pounds
1927, 100,000,000 pounds

There is no reason for a market recession in copper buying this fall, even if the demand from the automobile and industries falls off as much as the most unfavorable surveys and forecasts indicate. That is the attitude of the copper trade, which sees in the enormous expansion of the utility, lighting and power projects a bigger avenue of copper consumption than the world has even previously known.

Informative Charts

Informative charts in the offices of the copper producers give an accurate picture of what is happening in the world markets and afford opportunities aplenty for "sizing up" the future prospects of the industry. A period of over-buying in the early part of this year forced prices of the metal from 18 to 24 cents a pound, the peak price of the whole postwar period, and this was followed by a sharp reaction, which practically wiped out all of the first-quarter advance, the result was not surprising to the copper leaders, who realized that over-buying had been taking place.

Not buying orders, but deliveries, constitute the most reliable market gauge, according to the head of one of the country's largest producers. His charts show an abrupt falling off in copper buying at the 24-cent level in the early part of the year, but deliveries were well maintained, showing that the big consumers of copper knew how to handle their market. Not much fluctuation from the 18-cent level is expected in the final three months of 1929, and no change is desired by copper producers, who prefer above all things a stable market for their metal.

Get High Wages
One large producer estimated that 65 per cent of American production would be required for the public utility industry, including telephone, power, light and traction services. The day of isolated plants, he said, is gone. Instead of attempting to generate their own power, industrial plants in all sections of the country were hitching a wire to a central

source of power and thereby operating at 33 per cent. of costs, as compared with the old system. As to production costs, the higher wage scales, higher fuel prices and mounting transportation charges are more than offset by increasing efficiency and better grade of ore. Many of the copper companies are producing the metal on a profitable basis, from ore which a few years ago was good only for the scrap heap.

Legion Post Will Meet This Evening

Many Matters Of Importance To Be Discussed At Meeting In Post Rooms

Perry S. Gaston Post, No. 343, will hold their semi-monthly meeting in the post rooms in the Legion Home Association Building this evening, when a busy session is expected.

New officers elected at the last meeting in September will be installed at this time. Reports will also be received from the committee arranging the big Field Day at the New Castle Field Club on Wednesday, while delegates to the national convention at Louisville will also render a report.

Beer Is Fading Away In France

(International News Service)
TOULON, Oct. 8.—Beer is fading fast away in France.

The hot summer has induced so much absorption of this cooling liquid that in some places there is no more to be had.

Toulon, especially beer loving as its citizens, is suffering from an excessive thirst for beer. Some of the cafes are altogether without it. Others are adorned with cheering placards happily declaring "More Beer!"

The summer has been so oppressively hot here that wines and cocktails were abandoned for icy draughts of beer.

French brewers are planning a much more extensive output of the Teutonic national drink for next summer. They claim this summer is an indication of a growing taste for beer on the part of the French, and that this country may yet rival Germany in the making and drinking of malt liquors.

ROSE POINT

Pupils of Rose Point School Room No. 1 and 2 who have been neither absent nor tardy during the month of September are as follows:

Room No. 1: Jessie Mae Brown, Edna Fisher, Betty Gallagher, Betty Morrow, Eida Stuart, Mildred Stuart, Ethel Stickle, Oscar Clark, Guy Dianno, Tony Dianno, Norman Fisher, Warren Gallagher, Robert McFarland, Gaylord Stuart, and Ralph Wilkison. Room No. 2: Russel Gallagher, Dick Stickle, Leonard Stuart, Rosie Dianno, Pauline Gallagher, Helen Jones, Ethel McFarland, Ella Stickle and Doris Wilkison. Percentage of attendance, Boys 94; Girls 97. Teacher Florence Wilkison.

Miss Tillie Stoner who has been very ill, is some better. Mrs. Wellar McElmonds entertained the W. C. T. U. on Thursday. Wm. Coulter is on the sick list. Pearl Kennedy who is working in New Castle visited her mother on Sabbath.

Mrs. Anne Gallagher is ill with quinsy. Margarita McElwain left Monday to take a position in the Margaret Henry Children Home, New Castle, Pa.

At the home of Mrs. P. D. McCracken, a business meeting of the Juniors and Intermediates of the Reformed Presbyterian church was held. The purpose of the meeting was to organize the boys and girls under a new name. The officers were elected. President, Edsel Updegraph, secretary, Doris Wilkison; vice president, Ethel McFarland; treasurer, Arthur Kennedy. After the election of officers, Rev. McCracken, presented the name "Crusaders" the meaning of which he explained and that name was adopted for the new organization. The following committees were appointed: Prayer Meeting: Russel Gallagher, Norman McElwain, Robert McFarland. Lookout: Edsel Updegraph, George McFarland, Gaylord Stuart. Sunshine: Pauline Gallagher, Arthur Kennedy, Mildred Stuart. Missionary: Ethel McFarland, Warren Gallagher, Lucy McElwain. Social: Doris Wilkison, Ethel McFarland, Wesley Gallagher, Dick Stickle. After committees were appointed the meeting was adjourned and a social time enjoyed. Miss Bernice Stickle will have charge of the Crusaders during the month of October.

BORLAND TO HEAD OLD HOME WEEK

FRANKLIN, Pa., Oct. 8.—Always a pioneer James B. Borland, Franklin newspaper editor "in the game" for 51 years, is about to head the fourth Old Home week which the city is planning for August 1930. Borland was chairman of the other three, and citizens say he is the logical choice for this next one. He gets his greatest "kick" out of life now, planning with subscribers of his paper daily in a column which he started eight years ago in the days before newspaper columns of the individualistic type had become such a fad.

STRUCK ON CROSSING GETS \$17,750 VERDICT

LISBON, O., Oct. 8.—A record personal injury verdict of \$17,750 had been rendered in the Columbiana county common pleas court here in the \$75,000 damage suit of Ardie Bohrer of Leontonia against the Erie, Cleveland and Atlantic against the wrecking of a motor truck on a crossing in Leontonia on July 7, 1928. A jury of seven women and five men returned the verdict.

CUBS AND ATHLETICS OPEN SERIES TODAY

Hearts Throb Madly In Chicago As 1929 Series Battles Get Under Way

First Time In Eleven Years That Cubs Have Had World's Series Play

Nineteen Years Ago Cubs Were Socked By Macks In Big Fall Classic

By DAVID J. WALSH
CHICAGO, Oct. 8.—Chicago, Chicago, that waddlin' town, coldly turned its back on the riddle this morning and this time paid its dollars and its homage to an equally interesting but far less exacting maestro.

It was the great day of the opening game of the 1929 world series and, for once, Chicago forgot its jazz, its loves and hates, its vendettas, its very conscience and, light hearted as always, hastened to this new goddess of joy and knelt at her shrine. Chicago today was a town bereft of all save baseball passion.

Its lightning ball club, the Cubs, was on a world series for the first time since 1918. It was about to re-enact a drama of nineteen years standing, for the opposing club was the Philadelphia Athletics and it was the old Athletics who beat the old Cubs in 1918 for one of the major upsets of baseball history. And finally the day was to be Chicago's first reunion of the world series graduating class of 1915, when the backbone of a great ball club, the Black Sox, sold out the old, loyal town for a dollar-ninety down and the rest in faithful payments from Mrs. Marvonne's daughter, Kathleen.

It had been ten years since the town had the right to shout but today the graduating class was back on the old campus, shouting more gleefully than ever. It had a winner again and, better still, the town knew that if this one didn't remain a winner, it at least would lose honorably.

Look For Mammoth Crowd.
No wonder 51,000 lucky citizens were to overflow Wrigley Field at 1:30 o'clock this afternoon when the first ball to be pitched by Charles Root, of the Cubs. No wonder the life of the city and virtually the state was in a state of arrested animation while the eye and ear of the community was focused on the scene where history was in the making. No wonder the night life of the town sum- marily deserted the loop and had its headquarters at the mite, darkened portals of Wrigley Field where thousands outwaited the night with what patience they might.

It wasn't surprising, either, that a favorable day was ordained. Seemingly, providence was far too kindly to spoil the city's holiday with rain or chill winds or both. Nor was the fact at all remarkable that the governor of Illinois, Wisconsin, Indiana, North Dakota, Iowa and Kansas planned to grace the occasion with their presence. Neither king nor noble could afford to stay away.

Twenty-Sixth Series.
This will be the twenty-sixth world series under modern rules and in many respects it figured to be the greatest of them all. Few teams in history have had so evenly matched. None have had a greater incentive to win. For the Cubs, this impetus came from a two-fold desire: First, to redeem the tragedy of 1919; second, to restore the prestige of the National

League, which until today had lost eight straight world series games without a victory or a time in the last two series of 1917 and 1918.

For the Athletics, redemption of past indignities also was the abiding motif. It had been fifteen years since the old Athletics, one of the greatest clubs of the ages, lost four straight to the Braves, one of the greatest of all mediocrities, and although time had an incentive, this one had today, for kindly, patient Connie Mack was back with a winner for the first time in fifteen years and his was an inspiring figure that none but a man of stone could view unmoved.

Athletics Sure; Says Connie Mack

Philadelphia Leader Is Confident As Series Gets Under Way

By HAROLD JOHNSON
International News Service Special Correspondent

CHICAGO, Oct. 8.—"We are out to win in as few games as possible—in four if we can—but this is a short series and you never can tell what may happen. What do you think?" There you have the terse rejoinder from Connie Mack's lips if you're lucky enough to hold his attention long enough to inquire as to the hopes of the Philadelphia Athletics in the world series warfare with the Cubs, starting today at Wrigley Field.

It's just a case of the interviewer being interviewed. The lean leader of the American League monarchs, despite his thirty years' service as a manager and ten campaigns as a player admits that chance plays such a prominent part in the game that his own opinion is really no better than the other fellow's guess.

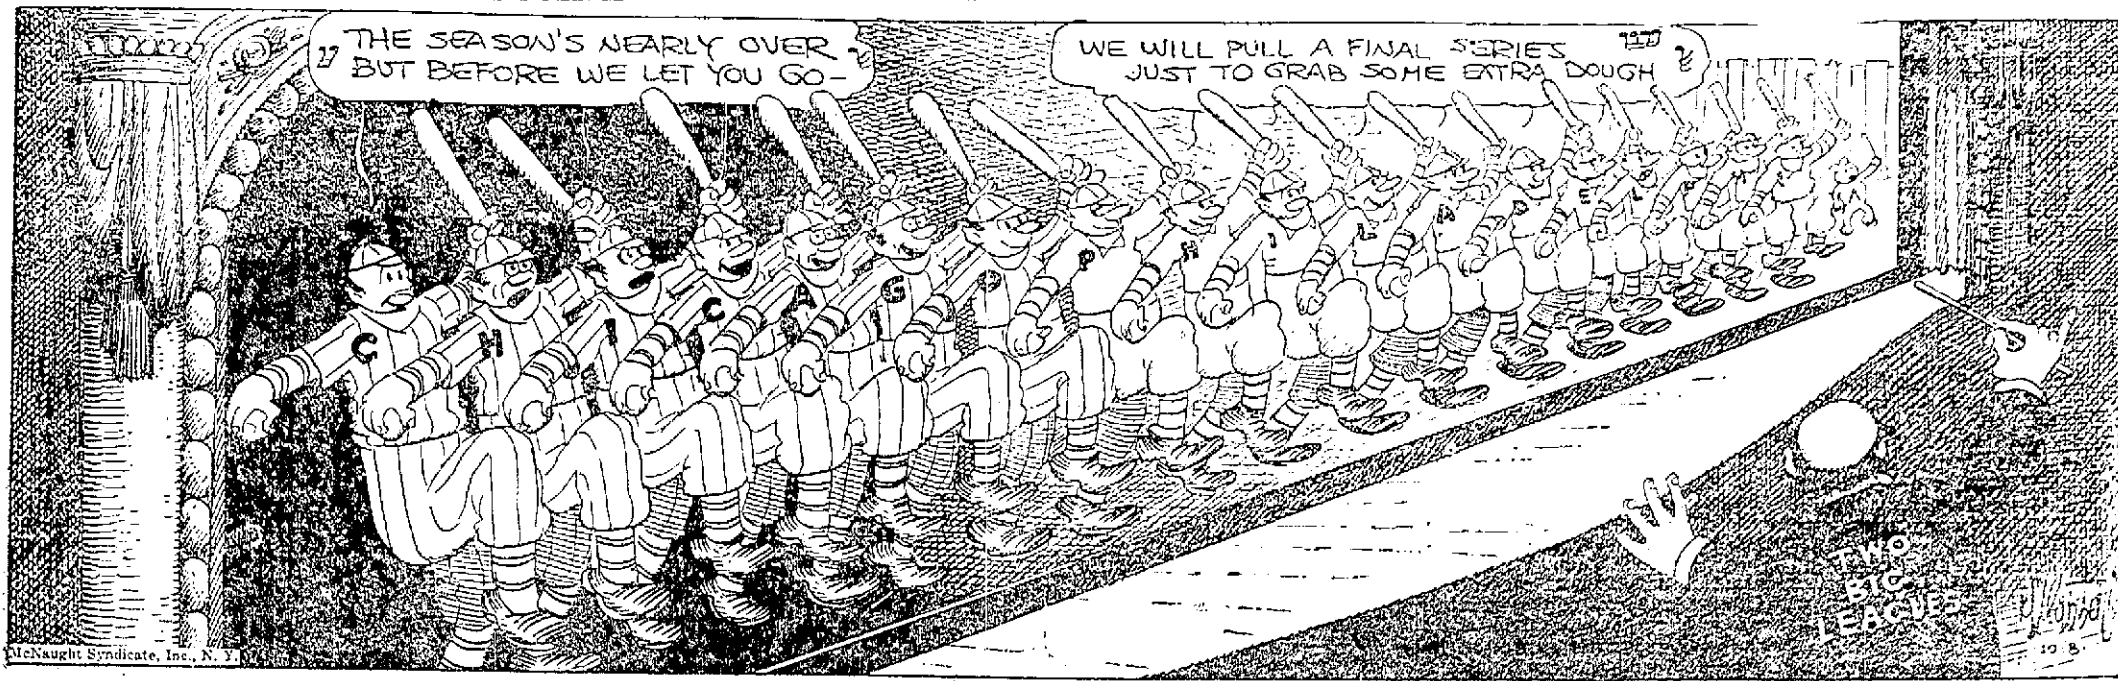

Dopers find scant enlightenment in the vital statistics, it is known to everybody that each contender packs a tremendous wallop offensively. There is little difference in their team swatting records for the past season, and in fielding the flag winners of each circuit rated first. Each is fortified with a pitching corps embracing highly competent stars of both right and left handed persuasion.

Cub partisans assert that Earnshaw, Grove and Walberg haven't a chance to subdue Hornsbey, Stephenson, Wilson and Cuyler, and Quaker City rooters flare up in rebuttal informing you that no American League hurlers fattened their averages this season pitching to Simmons, Fox and Cochrane.

Near Riot As Crowd Waits Impatiently For Gates To Open

(International News Service)

WRIGLEY FIELD, Chicago, Oct. 8.—The thousands of baseball fans waiting outside the gates here in the cold damp murkiness of dawn were treated to a near riot today which culminated in differences between Cubs officials and concessionaries and independent dealers in hot dogs and refreshments.

The disorders resulted in three arrests. Ray Knap, concessionaire, was placed under arrest when he objected strenuously to the activities of 50 or 60 enterprising merchants purveying edibles to the long line of fans waiting for a chance at the 12,000 \$1 bleacher seats.

Police charged that Knap, with the aid of Robert Lewis, who is said to be a traveling secretary for the Cubs, started pushing the vendors about. Shortly after a patrolman placed Ernest Cushman under arrest. Cushman also was charged with "roughing up" the vendors.

All three were released on bond and were to be tried early so they will not miss the first game. The long line of fans which kept the night-long vigil outside the bleacher entrance had representatives from almost every section of the country. One of the few women in line was Mrs. Benches Peters of Albany, N. Y. She and her husband were early arrivals and were near the head of the line.

Joe Harris Will Hear Series Games From Hospital Bed

OIL CITY, Pa., Oct. 8.—Joe Harris, former big leaguer will listen to the World Series game played in Chicago today although he is flat on his back in a hospital here.

Hospital officials have provided a special set of radio ear-phone receivers for Joe, who is recovering from a gall bladder operation.

FAIR WEATHER
(International News Service)
CHICAGO, Oct. 8.—Dawn came here today with a clear sky and a seasonable temperature which supported the prediction of fair weather made by the weather bureau yesterday. The weather man's forecast for the day of the first World Series game was: "Fair Tuesday with increasing cloudiness Wednesday, sixty degrees of temperature both afternoons."

Tommy Harper In W. & J.-Kiski Game

Tommy Harper, the elusive former New Castle High school football star, got into the Kiski-W. & J. Freshman game, at Saltsburg and played a good game, according to word from Kiski. Harper worked the mysterious triple take pass for a fine gain at left-end. Kiski won the game 9 to 7.

Mack Picks Earnshaw

GEORGE EARNSHAW

Connie Mack, back in the World Series limelight again, will send George Earnshaw, famous right-hander against the Cubs today, in the opening game of the Series at Wrigley Field. Earnshaw has been one of the leading pitchers in the American League this season, and has aspirations of setting the Cubs down in one or more games.

Cub's Choice Today

CHARLIE ROOT

Charlie Root, brilliant left-hander of the Chicago Cubs has been picked by Manager McCarthy, today to hurl the opening game for the Windy City team against the Athletics. Root turned in a fine record this year and hopes to tame the Macks.

Geneva To Meet Davis-Elkins In Stadium Saturday

Genevians Point For Game With Powerful Davis-Elkins Eleven

BEAVER FALLS, Oct. 8.—The colorful Davis-Elkins football team from West Virginia is the attraction at Reeves Stadium this coming Saturday afternoon meeting Geneva in a game that will rate the leading contests on the national collegiate schedule for that date. For Genevians it means the biggest chance of the season to make a bid for national recognition and it is with this in mind that Coaches Eccles and Davies are preparing the Gold and White squad for their hardest tussle to date.

A few seasons ago under "Bo" McMillin the Geneva Toronado leaped into the spotlight of attention among the nation's college elevens by holding Cornell 6-0 and defeating Harvard. By beating Davis-Elkins, West Virginia champs last season and already conquerors of West Virginia

University will give the small Beaver Falls college a similar opportunity of reaping almost as much favorable publicity as in the year when Harvard was downed. Several of the first team cricketers that missed last Saturday's encounter with the Catholicos will return to the squad this week and it is likely that for the first time this season Flenniken will be able to start his real first team.

Baseball Pool Men Face Indictment

(International News Service)
SYRACUSE, N. Y., Oct. 8.—District Attorney Clarence Unkles of Onondaga county today declared he would move to indict the alleged operators of the Albany baseball pool whose names, he said, are known to the police.

A secret investigation was instituted when William Kirkpatrick of Syracuse complained he had been refused payment of a \$15,000 prize.

Agents here and in Rochester, Elmira, Utica and Little Falls have been taken into custody. Father will have to step in and pinch hit occasionally when the young men graduate first strikes out for himself.

Root And Earnshaw To Pitch In Opener

By HARRY NEILY
I. N. S. Special Correspondent.

CHICAGO, Oct. 8.—Charlie Root vs. George Earnshaw!

That's the day's most important announcement. But it conveys the idea of who is to be who most prominently out at Wrigley field this afternoon. Marce Joe has declared himself in favor of Root. The rather secretive Connie Mack made no public declaration about his finger, he being of that disposition. Mention had been made of Grove and Walberg and other left-handers and Mr. Mack denied himself authoritatively to interviewers.

Therefore, one suspects that the master minds of the A's will start Earnshaw, who is full of control and good right-handed curves. Mr. Mack is fortified in his thinking by old "Pop" Gleason and Eddie Collins, whereas Marce Joe is supported in

intellectually only by Jimmie Burke and Grover Land.

Mr. Mack's emissary, Or Pop, reported early today that the A's are in prime working order. They have no spavins, no lame legs, no sore arms, no nothing that might hamper them in their baseball endeavors. The Cubs are in the same shape, as announced by Joe McCarthy in person.

That revolves the series right back to the bank where it started—a couple of good ball teams all set and ready.

There is a great deal of confusion in Chicago, naturally, because the municipality has not enjoyed a world series for a decade. It would be comic if the sun should hide behind the clouds this afternoon, the estate Mr. Mack would take a look at the heavens and would decide to pitch Jack Quinn.

Wrigley Field Gates Opened Hour Earlier

Bleacher Seats For Dollar Start 12,000 Through Turnstiles 7:30 O'clock

CHICAGO, Oct. 8.—A waiting army of cheerless figures that stood shivering throughout the night against the cold wall of Cubs' park came suddenly to life at 7:30 a. m. today and took "Fort Wrigley" with a rush and a roar that resembled an old-time entire stampede on the western plains.

They were the hard pressed in the great army of American baseball fans, each ready to fight for one of the 12,000 one-dollar bleacher seats to the first game of the World Series.

As the turnstiles began to click the clamorous and potent goodfellowship that had stood the test of the long hours of waiting gave way to mad frenzy and keen rivalry that meant "every man for himself."

The long vigil was enhanced shortly before dawn by a small riot involving independent vendors of hot dogs and coffee and authorized concessionaries of Wrigley Field. Police finally ended the "entertainment" by hauling three of the combatants to jail.

The bleacher sale originally had been scheduled to open at 8:30 a. m., but because of the great crowd Cubs officials opened the gates an hour early.

Union-Sherango Clash On Friday

Will Mark First Home Encounter For Union Squad This Season

With the game with Harrowsville high school safely checked up on the main hand slate of the ledger, Omaha U. M. G. of Union today pointed his bar and white poppin' carriers to the game with Sherango high at the Union field on Friday afternoon, October 11. Sherango likewise is preparing his eleven.

The game this week will mark Union's first home game this season. If you see certain colored outfits bugs for party dresses, other outfits for daytime and still others for coats and sports things you will be saved time and nerve strain in hunting for what you want in a hurry.

What About This Night Grid Game Many Fans Query

Will New Castle And West- inghouse Play Friday? Is Not Decided As Yet

By "BUGS"

Will Westinghouse and New Castle play a night football game at the stadium on Friday? This question has been asked over The News telephones many times in the past two days. There seems to be an impression that Westinghouse is trying to back out of the agreement to play a night game here. This is not correct. The Westinghouse football game will not come to New Castle on Friday evening, but they will play the official game of the Saturday night of Public Instruction in Pittsburgh, and it is understood that this game will be played on all teams played outside the city of Pittsburgh by city schools.

Just what objection the "big boy" has on night-football is not definitely known here. Faculty Manager Ralph H. Gardner has had the wires hot between here and the Pittsburgh district, and it is possible the locals are going to try and secure Westinghouse for the game Friday, otherwise the game will be played at Franklin Field on Saturday afternoon, and if so, the game will start at 2:30 o'clock.

Definite word in regard to the matter is to be learned today by the New Castle High officials.

Harry Fuller Defeats Firpo

Unanimous Decision Goes To
Fuller After 10 Sensa-
tional Rounds

ROMEO PACELLI
DEFEATS BOYCHAN

By ED. FRITZ

That portion of the flaccid populace which has howled long and lustily for the head and blood of Henry Firpo, Cleveland, had its penchant somewhat appeased last night at Jolly bowl when Harry Fuller, 164½, Niagara Falls, defeated Firpo, 158½, in a sensational 10 rounds bout.

It was a hard fight from start to finish and while science entered into the match at various stages Firpo and Fuller preferred to slug toe to toe. There were no knockdowns but each second of the battle was crammed with action. Time and again both were staggered but neither went to the floor.

There can be no question but that weight played a part in Firpo's defeat as Fuller came in to the scale-room at 165 yesterday but after a workout emerged with 164½ pounds and Acting Manager Eddie Conrad collected his forfeit. They had agreed to weigh 160 pounds at three o'clock.

Fuller fought a rushing fight that bothered Firpo continually. Heretofore, against other opponents here he had not had much trouble with that style of an opponent but last night his left did not bring Fuller up short while Harry's left hook to the stomach was something that Firpo could not stop throughout the grueling battle.

Both Staggered
In the third round Firpo landed a right to the chin that drove Fuller into the ropes but he did not go down but seemed to infuriate him and he came back as strong as ever. The tables were turned in the fifth when Fuller caught Firpo coming in and his right to the jaw made Firpo's knees buckle as he grabbed and clinched.

They fought almost blow for blow during the last five rounds and they battled fast. There wasn't an idle moment. Many of the punches that Fuller parried thought had landed were blocked by Firpo and many of Firpo's rights landed on the neck rather than Fuller's jaw.

The last two rounds were fought with the velocity of a hurricane. Neither gave an inch and it was practically blow for blow. Firpo tried to overcome Fuller's lead and took the ninth round but Harry came back and by a desperate rally in the tenth took the round and was given the decision at the end of the 10 rounds clash.

But the Fuller-Firpo fight was not the only good scrap. Indeed not. Romeo Pacelli, 128, New Castle Flash defeated Joe Boychan, 127½, in the six round semi-final which was a classic. Romeo, the boxer outmaneuvered the slugger and had a lead throughout.

It was Romeo's best fight of his career.

Romeo's Great Fight

Boychan fought such a sterling battle that many of the fans asked that the ten round main battle as some of the Boychan partisans believe that in a longer clash the Newark Dutchman would be able to make his punches tell. But last night Romeo won and to this there can be no question.

Some of the yelpers don't like the Eddie Conrad-Joe Thomas, lightweight six round scrap, but they had seen so much slugging they were "going red" and didn't care for boxing. But is it a fight between two champs who were trying to come back. Eddie's stamina faded in the last portion of the bout and Thomas drew the decision.

Marshall Crochette, Utica, N. Y., 121 a miniature Tony Herrera and perhaps a coming Johnny Kilbane of Jim Dunn's stable showed himself to be a master boxer for a youngster and out-pointed Jack Lapan, 119½, Cleveland in four fast rounds.

Jack kept trying but he was out-reached and many times rushed pell-mell into a flock of boxing gloves. No difference how fast Marshall punched and stepped Jack was after him but he lost but in losing to Crochette Jack need feel no pang of regret as he made a hit even though he lost the decision.

Lands Wins Another
Al Shura, Butler, Pa., a tough, rugged kid dropped the decision to Frankie Lands, of New Castle. They are bantamweights. Time and again they staggered each other but Frankie's superior boxing and cleaner punching especially in the fourth when he dropped Shura and his edge in the sixth won the award.

The bouts were staged by Bill Jolly. George Chip was the referee. The judges were Paelia and Jones and the deputy commissioner of boxing was Larry Gent, Franklin. Bugs Walters announced the proceedings and the crowd was the largest in some time. Next week Jimmy Harry battles Maxie Strub in the 10 round feature.

Battle Of The Macs

Connie and Joe have taken the place temporarily of the perennial Pat and Mike in these fan favorites which start "There were two Irishmen" etc. For today, Cornelius McGillicuddy and Joseph McCarthy (wishes like two checker champs in a Wicklow inn) will start playing their Athletics and Cubs respectively for the baseball championship of the world.

When Mack his historic scorecard smaphore in hand peers from the Athletic dugout at Wrigley field, Chicago today the wraiths of Babe Waddell, Eddie Plank and all the other "A's" who played for him since 1901 will be rooting for their Old Master and his 1929 team. Connie has produced seven pennant winners for Philadelphia and since his long experience has run the gamut of the game's fates he has also felt the woes of seven tailenders in succession!

Fifteen winters have elapsed since Connie scrapped "the team that won too many games" and as many Autumns have passed since Mack master-minded in a world series. But at 66 this tall and slim diamond sage is as alert in directing details of play as he was when conducting like operations as far back as a quarter of a century ago.

In the opposite dugout McCarthy manager of the Cubs will try to "out-think" the other Irishman as many fans would say it. Joe leads the National league champions in the fourth year of his big-time experience having come from Louisville at the end of the 1925 season. The Cubs finished last that year for the first time in their history. Louisville won the American association flag that

Bowling Matches Start October 14

Nine City Churches Enter Teams
In This Year's Competition

Managers of the Church league bowling league met recently for the last time before the start of the 1929 bowling season. From the comments of the different managers it appears as if the race for championship honors this year will be a difficult one. The league this year will be divided

into two halves. At the close of the first half two more teams may be taken in if the teams so desire.

Churches which have been entered in the league this year are the Methodist M. E., the Central Christian, the Epworth M. E., the Croton M. E., First Baptist, First Christian, Central Presbyterian, Congregational. The Second U. P. team will play special matches with the different churches and with the Y fraternity teams.

It is planned to draft a schedule for the games within the next few days and a copy will be forwarded to all managers just as soon as this is done. The first matches of the season are planned for Monday, October 14 at 8 o'clock.

- 2 The Vanishing-Antenna Test
- 3 The Hairpin Test
- 4 The Coin Test

One Radio Stands Out From All Others—because it will do things other radios simply cannot equal. That one radio is SILVER RADIO—guaranteed, for instance, to get more programs without an aerial than nine out of ten other radios can get with their big interference-collecting outdoor aerials!

That's a big claim—like that of the man who offered to "whip all comers with one arm tied behind his back." But SILVER RADIO is a mighty "big" radio. In side-by-side tests with other radios, SILVER RADIOS have produced startling results every time.

Take the four tests above. They can easily be applied to any radio (your Silver Radio dealer will make them for you), or give you a folder that tells how you can apply them to any radio anywhere. They'll show you the simply amazing difference between SILVER RADIO and all other radios. Then make any other test—the stiffer the better—that you can think of. For tone, in order that you may realize the simply gorgeous tonal possibilities of SILVER RADIO. For sharp tuning, to see how it brings in only one program at a time. Examine the marvelous beauty of SILVER RADIO cabinets.

When you're all through testing, you'll realize just why California owners of SILVER RADIOS can get Japan, Australia, New Zealand in their own homes in the wee morning hours . . . just why world-famous opera stars select SILVER RADIOS for their own homes because of its beauty of tone.

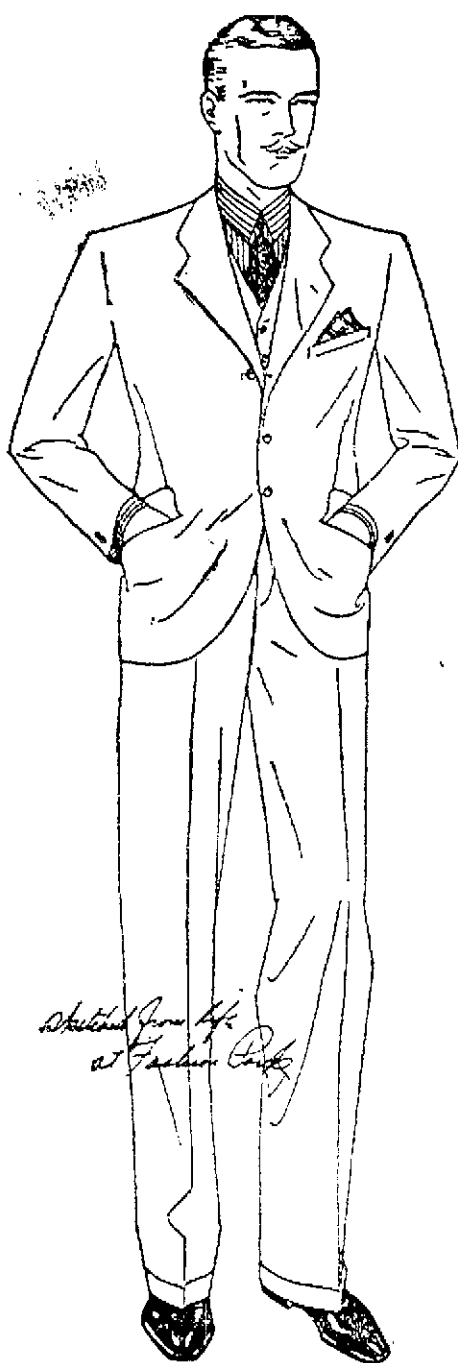

And, after all, why not have the best in your own home, too . . . tell your SILVER RADIO dealer that you've "come to see his four amazing tests."

Starting New Features of SILVER RADIO

SILVER RADIO, product of the manufacturer who introduced screen-grid radio to America in 1927, is now, naturally, the most widely imitated of all radios. But only SILVER RADIO has "everything new"—FOUR screen-grid tubes, screen-grid power detection, band-selector tuning, matched-impedance electro-dynamic speaker, Overtone Switch to minimize static, complete shielding, automatic voltage regulation where desired, and—ELIMINATION OF ALL AERIAL CONNECTION.

NEW YORK STOCKS STOCKS ARE LOWER IN EARLY TRADING

(International News Service)
NEW YORK, Oct. 8.—After wavering uncertainly around last night's closing prices, renewed Bearish pressure and selling was leveled against several recent favorites and the main body of stocks ruled generally lower in early trading this morning.

International Combustion was again the centre of a concerted Bearish attack and was forced down to 34 for a loss of 1/2 points. United States Steel was down 2 1/2 at 21 1/2. Montgomery Ward was off 3/4 at 10 1/4 and Westinghouse Electric showed a loss of 4 1/2 at 22 1/2.

Rails continued firm with New York Central and Union Pacific in active demand at higher levels.

Oils which had been looked upon as ready to take over the market leadership proved a disappointment in the first hour with most issues in this group showing a tendency to ease off from yesterday's closing prices. Standard of New Jersey was off 2 1/2 at 79 1/2, and Standard of New York was down fractionally. Atlantic Refining however, was able to show a gain of 1 point at 60 1/2.

Featuring the early activity with new all time highs were the following issues. U. S. Industrial Alcohol which reached 22 1/2 for a gain of 5/4; Eastman Kodak which showed an advance of 2 points at 25 1/2; Paramount which was up 2 1/2 at 75, and Otis Steel which ran up 4 1/2 points to 52 1/2. Air reduction was an early sensation with a gain of 1 1/2 at 21 1/2.

Motor stocks were generally lower, with Chrysler and Studebaker unable to maintain their early advances.

Mid-Way in the second hour constructive forces were able to show sterner resistance to the reactionary tendencies, and many issues recovered part of their early losses.

Money renewed at 1 1/2 per cent. Sales for the first half hour totalled 675,600.

Two Appeals For Capone Dropped

(International News Service)
PHILADELPHIA, Oct. 8.—Two appeals of "Scarface Al" Capone in the superior court were dropped at the request of his attorneys today.

Only two chances of obtaining the Chicago racketeer's release before his prison term of a year is completed remains. One is the chance of favorable action by the higher court on his appeal from dismissal of his plea for a writ of habeas corpus. The other is the chance of favorable action by the state board of pardons.

Convention Secretary

Miss Lois F. Gibson
All the countless details of a huge convention, such as registering delegates, selling space in the hall, etc., are placed in the capable hands of Miss Lois F. Gibson, secretary of the twelfth annual meeting of the Direct Mail Advertising association in Cleveland, Oct. 9-11. Miss Gibson served in similar capacity in Detroit in 1928 for the International Advertising association.

MacDonald Ends
Stay With Hoover
In White House

Premier MacDonald And Daughter Ishbel Go To British Embassy Today

FINAL OFFICIAL
TALK IS HELD

R. DAVID P. SENTER, International News Service Staff Correspondent. WASHINGTON, Oct. 8.—His job well done, Labor Prime Minister Ramsay MacDonald, ambassador of peace, held his last official conference with President Hoover at the White House and moved back to the British embassy today. He had been the guest of the chief executive since they both returned from their log-fire conversations at the Hoover camp on Monday. The final official talk between the British prime minister and the president lasted an hour and was more in the nature of an exchange of felicitations on the optimistic outlook for the coming disarmament assembly in London. The sounding of this call to peace was the direct cause of the conversations between these two statesmen. From today onward, the prime minister is scheduled to meet the president only in a social way and the future contribution to the cause of peace by the premier during the remainder of his stay in America will be more less psychological.

Ohio Motorist
In Gun Battle

(International News Service) UNIONTOWN, Pa., Oct. 8.—State troopers today are searching for an unknown Ohio motorist who last night was shot in a running battle with state police. The motorist took to the woods and mountains near Addison after the officers fired on him. The man had speeded up and tried to escape when patrolmen signalled for him to stop last night, and ran when they opened fire, abandoning his machine.

Every normal woman knows which one would snub first if she should become rich.

Injuries Fatal
To Youngster

(International News Service) GREENSBURG, Pa., Oct. 8.—Harry Good, five-year-old son of Mr. and Mrs. Henry Good of Manor, is dead at his home today as the result of a fractured skull received in an automobile accident four days ago. The boy was injured when the car in which he was riding, driven by his brother, Lester, 18, collided with the machine of Senator John E. Kunkle of Greensburg. The accident occurred near Irwin.

IS ADMITTED TO
SUPREME COURT

Attorney Harry H. Frank of this city was among those admitted to practice in the supreme court of the state at Pittsburgh yesterday. It is announced.

APPOINTED TO BAND. Bruce McGeehan of Martin street, a sophomore at Penn State university, has been admitted to the Blue band of the university, as cornetist. Mr. McGeehan played a cornet in the New Castle senior school band of 1923, under LaVerne Irvine.

EDUCATING FUTURE POLICEMEN

What the United States needs, according to Prof. August Vollmer, who gained fame a few years ago as the scientific police chief of Berkeley, Cal., is intelligent policemen. Vollmer is shown conducting one of his new classes on "police administration" at the University of Chicago.

Argue Will Of Man
Who Died In 1887

(International News Service) PITTSBURGH, Oct. 8.—A case involving the will of a man who died in 1887 was argued before the supreme court here today.

The case was the appeal of Stiffler heirs in the case of Stiffler against the Pennsylvania Coal and Coke company, from the court of common pleas of Cambria county. Jacob Stiffler, who died in 1887 left 314 acres of land, underlaid with a valuable vein of coal, to his daughter-in-law and son, Mr. and Mrs. John B. Stiffler, with the provision that they take care of two other sons and the widow. All of the original beneficiaries have died and the grandchildren have questioned the right of the John Stiffler heirs to sell part of the land, which they did in 1900 and the coal rights which have since passed to the Pennsylvania Coal and Coke Company.

The title to the land on both sides originated from Jacob Stiffler.

Bank Robber Is
Given Sentence

Last Chapter Written In Trafford City Bank Robbery Last November

(International News Service) GREENSBURG, Pa., Oct. 8.—The final chapter in the daring hold-up of the Trafford City Bank last November which net four robbers \$15,000 in cash was written here today with the sentencing of William Gillespie to the Western penitentiary. Gillespie, the fourth member of the gang to be sentenced, entered a plea of guilty to the charge of robbery, pointing firearms and carrying concealed weapons and was sentenced to serve from 8 to 18 years on the robbery charge, with sentence suspended on the other counts. Gillespie was arrested in Salt Lake City, Utah, several weeks ago and brought back here to face trial for his part in the most daring robbery in Westmoreland county history. The four bandits held up the bank in broad daylight shortly after it opened for the day's business and made away with all the cash in sight. They took one customer, L. M. Kimmel away with them when he tried to stop their escape. Two of the bandits were captured shortly after, but Gillespie and Patrick Trader escaped.
